

The Instagram Advantage

Hey Chris,

I respect how your daily content is overflowing with **free** value.

What stuck with me was when you said,

“Being bold and pushing for intimacy is what separates high-value men from those who are often in the friend zone”.

On a well-edited short reel, this point can **impact** many online users, and what better place than Instagram? (*one of the most used apps*)

Picture yourself without an Instagram presence.

It's as if you're standing by a lake with an empty hook filled with fish, watching as those golden opportunities slip right through your fingers.

You're not only missing out on opportunities to capture the attention of young, lost men.

You're also missing opportunities to connect and direct them to your website slip away. Right before your very eyes.

If you're in, reply “Yes”.

No questions asked, I'll send the link.

Talk soon,

Ricardo Mootoo
