Simoni's Reflections

Among other, I would like to stress out our community social responsibility policy already stated in: <https://www.noir-palace.com/csr>

We are fully confident that Noir Palace can be successful as long as the ecosystem we operate can be also healthy and successful. Thus, we seek to improve and contribute it by taking considerable actions.

We have made forum posts to engage and aware our community in health, safety, environmental, work issues. RLC users who try to launch a patch or software - "client" are now aware what to do even before RLC itself gives them a solution. Use of our forums for people to have a better virtual life.

We have been sensitive to people who lost their own relatives after the Corona Virus funding them with money (through Rays) to overcome emergent situations. People with other health issues are given priority and help by our members.

We have made an effort to find our real jobs through networks to help our people get a chance after crises we get from coronavirus.

We have developed and announced the term of Noir Buddies, those members who volunteer to help any person within the Noir Community in any aspect.

Noir Palace is a fully responsible virtual organization seeking to exceed our people expectations.

The majority of them are Gold Members. We keep a daily feedback by our members and incorporate their needs into our services.

In this edition, we present the view of one of our members, DogFather42!

Frannie's Reflections

It's been an interesting few months - using the Chinese Curse definition of "interesting". And while I've not been able to get into Noir as much as I want due to my home situation, I've been happy to see our Members and Ladies making Noir Palace their social destination in this time of physical social distancing. I hope you all continue to do so as we get back to the 'new normal', and after that, the 'old normal'.

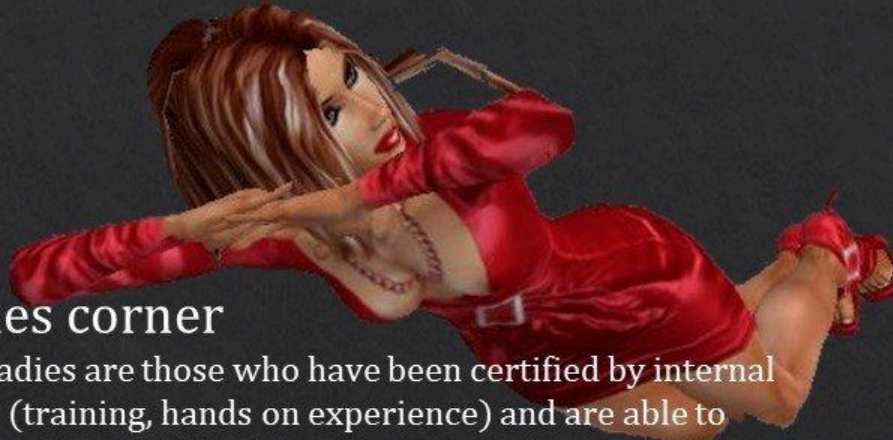

As DogFather has expressed, Noir is a business, a club, and a family. I am incredibly proud of Noir, I would have probably dropped out of RLC had I not found it. I would like everyone to keep sharing their lives, both Real Life and RLC life, in the forum, <https://www.noir-palace.com/forum-1>, general chat in the Palace, and if you like, contribute an article to PlayNoir.

Thank you for being part of my life!

Cyndi's Reflections

Of course my BEST reflections come from my trusty mirror! But I would like to take this opportunity to honor two of Noir's finest ladies. Rita77 and Kitty SIF. They are long time loyal Noir ladies that epitomize what an outstanding Noir lady is with their daily contributions. Both are much loved by members and Noir ladies alike. They are a trusted vision of what all Noir ladies should strive to be. Sometimes, we seem to take efforts like theirs for granted and I don't want that to be the case. I want them to be recognized for the outstanding service they provide and be examples of what a true Noir lady should be. Thank you ladies for your outstanding service!

DogFather point of view:

Why Noir?

To these who are thinking about becoming a member....

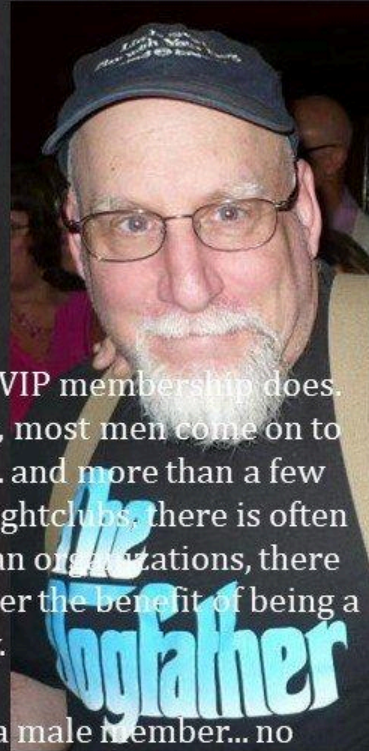

Two words.. do it.

Everything in life comes with a cost, RLC VIP membership does. We pay for what we get, and to be honest, most men come on to RLC to interact with interesting women.... and more than a few women do as well. For those who go to nightclubs, there is often a cover charge. For those who join clubs an organizations, there are membership fees. One decides whether the benefit of being a member is worth the dues one has to pay.

So, my friend... you ask, is it worth it? As a male member... no pun intended... ABSOLUTELY YES.

You will find no other place in the Utherverse with such a wide assortment of interesting women from around the world than at Noir. With the advent of Google Translate, conversations with people who speak other languages is pretty easy.

I have had the opportunity to converse and strike up friendships with women and men whose first languages include French, Spanish, German, Greek, Russian, Japanese, Dutch and Gujarati. I have met men and women of all ages, with varied occupations. Now, this could happen anywhere else in the Utherverse I suppose.... if so, I have not found that place. There are people who actually say more than "hello" here.

<https://www.wevideo.com/view/1757350744>

Always was, and supposedly always will be, one who likes the ambience of the neighborhood bar or as is said in the UK, the local pub.... like the old TV show CHEERS, a place where everyone knows your name. There are many regulars, and unlike many other places, NOIR is extremely welcoming to new members and to people who are new to RLC. NOIR offers the friendly local bar ambience, AND with, for me at least a very reasonable membership fee, the opportunity to interact intimately with some truly spectacular women from around the world. One could spend a lot of time wandering around the Utherverses hoping to find hook up with one or two ladies of this caliber, and without a doubt, you will find them, but I would bet my foreskin... if I still had one.... that you will not find this many interesting women in one place on a regular basis, who are DEDICATED to the pleasure and comfort of the NOIR membership.

To wit, if you, the reader, are a careful shopper, you will get more out of your Utherverses VIP membership by becoming a member, especially if you have time to spend at Noir Palace and to attend the numerous parties. This has been my experience....

Hope to see you at Noir Palace soon!
