F **Furry** the release of Letraset sheets containing Lorem Ipsum passages, and more recently with desktop publishing software like Aldus PageMaker including versions of Lorem Ipsum.

39 minutes ago · Like

Andrew cobb only five centuries, but also the leap into electronic typesetting, remaining essentially unchanged. It was popularised in the 1960s with the release of Letraset sheets containing Lorem Ipsum passages, and more recently with desktop publishing software like Aldus PageMaker including versions of Lorem Ipsum.

Trello steps for uploading a photo:

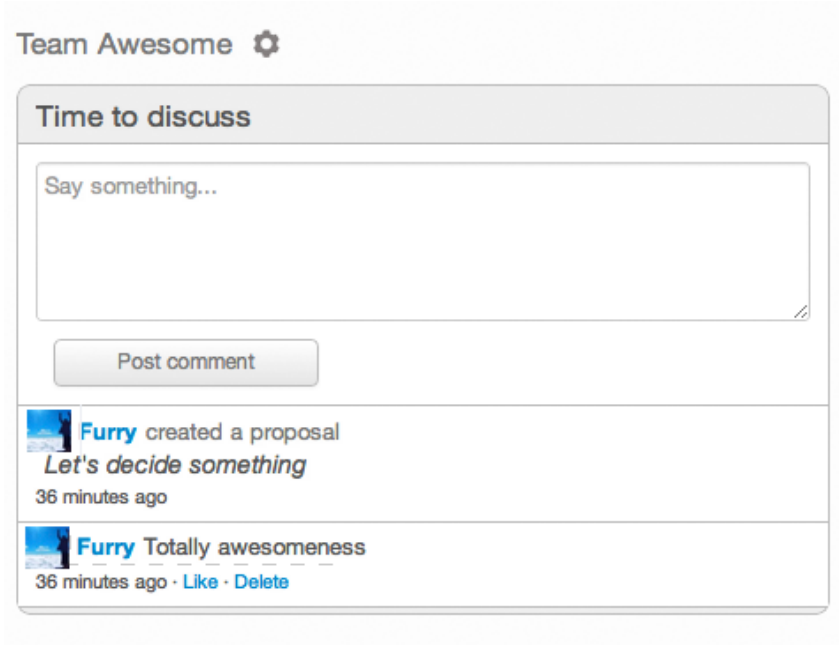

Here is the plan for selecting a users image:
- Default to initials or first two characters from email
- On the right of image, have “Change Avatar” section
- Change Avatar:
  a. Get gravatar image based on email
  b. Initials avatar option, use name initials or first 2 characters of the email
  c. Upload a picture - automatic stretch or skew - they can upload a better sized one if they want. This will be used in place of the Gravatar

This will be more of a square than a rectangle:

These images will be larger and in their own column:

We will not have these proposal images for now:
