

## Grant-Writing Resources\*\*\*

\*CSU does not endorse any of these writing services specifically, this list is used for informational purposes.

\*\*Before choosing a grant writing service make sure to ask what their acceptance rate is for most grants and if they give a discounted rate the second year if your grant is not accepted the first year.

### Stewards Unlimited

[Stewards Unlimited](#) is a business development consultancy which specializes in USDA grant writing. SU works with individuals and organizations across the US and internationally to research opportunities, develop strategic project plans, and secure funding through proposal development. SU works with a wide range of non- and for-profit businesses to secure funding and contracts from both public and private sources, specializing in working with agriculture, environmental technology, business/workforce development, and youth education/empowerment.

Our biggest passion is working with farmers to increase their profitability and ability to access new markets. We offer free consultations to anyone interested in learning more, so feel free to share my information! Developing proposals and communicating your value to others is not something that should be done lightly. We want to be your stewards, taking what you have built and leveraging it to create new growth. A steward takes on ownership of work and treats each resource as if it were their own to be invested wisely.

### One Small Step Writing Services

[One Small Step Writing Services](#) helps scientists, entrepreneurs, and self-published authors produce polished written content and win grant funding so you can focus on what you do best: change the world. We are skilled grant writers and experts at connecting scientific research projects, nonprofit organizations, and even new business ideas with the funding you need. We also offer editing and proofreading to ensure you publish credible content in all types of writing, be it a technical article for publication, a new small business plan, or a fantasy novel. With the experience, knowledge, and willingness to work on any variety of projects, our staff would love to help you achieve your goals!

### Stray Acres

[Stray Acres Consulting](#) has a mission to align and connect front-line farmers and innovative ag companies to the right funding opportunities and support them in executing environmentally sustainable, high-impact, community building-projects. They provide Funding Strategy, Grant Coaching, Letters Of Intent, Grant Review, Grant Writing, and Consulting Ag Projects.

## Agriculture Grant Solutions

[Agriculture Grant Solutions](#) is dedicated to helping food, agriculture, and rural businesses secure financial incentives from various sources. We have produced successful grants for some of the largest -- and smallest -- food and ag businesses in the United States. Whether you have never received an incentive or grant before, or you have an entire professional team dedicated to grants that just needs professional bandwidth, we offer top-tier service and support.
