Planet Nine

Scientists have some new and exciting information. They found the ninth¹ planet in the solar system. It is 10 times bigger² than Earth and 20 times farther away³ from the sun than Earth.

However, scientists have not seen the planet yet. They only saw its influence on part of the solar system. They know that the planet is there; they just need to find it. If the planet is real, its orbit is very elliptical.

The rose is a type of flowering shrub¹. Its name comes from the Latin word Rosa. The flowers of the rose grow in many different colors, from the well-known red rose to yellow roses and sometimes white or purple roses. Roses belong to the family of plants called Rosaceae. All roses were originally wild and they come from several parts of the world, North America, Europe, northwest Africa and many parts of Asia and Oceania. There are over 100 different species of roses. The wild² rose species can be grown in gardens, but most garden roses are cultivars, which have been chosen by people. [...]

Dear Diary,

I am in class 7 now, and I have to say, I'm really enjoying it. I love all my subjects, but my favorites are English and History. I'm really looking forward to the rest of the year. I'm also excited about all the extracurricular activities I will be involved in.

I'm on the school soccer team, and we're already practicing for the season. I can't wait to see how we do.

Overall, I'm just really happy with where I am in life right now. I'm doing well in school. I have great friends, and I'm just generally enjoying myself. I hope this year is even better than the last. Rohan

Zoo visitors unexpectedly witness¹ the birth² of a baby giraffe

Visitors to the Milwaukee County Zoo witnessed an event that had not happened in front of a crowd³ since the 1990s; the birth of a baby giraffe.

Witnesses were able to see the mother Ziggy birth a male reticulated giraffe on Aug. 4.

The animal care staff⁴ got a call around 11:40 a.m. that day saying that Ziggy was going into labor while she was in her outdoor habitat. The staff quickly rushed to the exhibit where Ziggy gave birth to a baby male giraffe at 12:20 p.m.; by 1:40 p.m., the calf⁵ was on its feet and walking, said Jennifer Diliberti-Shea, media relations coordinator for the Milwaukee County Zoo.

"It all happened⁶ so quickly⁷," Diliberti-Shea told NPR over the phone. "Witnessing a moment like this can be out of the ordinary depending on the animal. We've had camels that have been born with the visitors there. Giraffes, not so much. We think that the last one — and our curator was not here at the time, so we don't have an exact date — was in the 1990s. So it's, you know, not a common occurrence." [...]

*Vocabulário:

¹witness: testemunha.

²birth: nascimento.

³crowd: multidão.

⁴staff: equipe.

⁵calf: cria, novilho.

⁶happened: aconteceu.

⁷quickly: rapidamente.

The Stars

I like to watch the pretty Stars
Shining in the sky,
They peep out only in the night;
I wish they'd tell me why!

If I could do just as I wish
And have all things my way,
I'd surely make the pretty Stars
To shine, instead, by day!
