Project Information

Portfolio or Project? *

Note: Portfolio should be a collection of like investments

- ☐ Portfolio
- ☐ Project

Portfolio/Project Category

Select the option(s) that best reflects the primary project focus. A building gut rehab with newly installed EV chargers and solar panels on site is an example of a project in all three categories.

- ☐ Building decarbonization (ex. building electrification, geothermal, ...)
- ☐ Transportation & related infrastructure (ex. EV charging infrastruc...
- ☐ Distributed Energy Generation (ex. rooftop solar, battery storage, ...)

Project Sector

Select the option(s) that best reflects the primary investment focus

- ☐ Not for profit
- ☐ Commercial
- ☐ Mixed use (ex. commercial space and multifamily)
- ☐ Multi-family (Market rate)
- ☐ Affordable Multifamily
- ☐ School district
- ☐ Municipal
- ☐ Other

Anticipated Project Construction Completion Date *

mm/dd/yyyy

What stage(s) of project development are complete? Select all that apply *

- ☐ Project scope defined
- ☐ Internal or external team with engineering, design, and/or technical expertise engaged on energy scope
- ☐ Energy audit/survey complete (or system proposal from an installer/contractor acquired)
- ☐ Contractor selected and engaged
- ☐ Budget complete
- ☐ Financing acquired (partial)
- ☐ Financing acquired (all)
- ☐ Construction Underway
- ☐ Construction complete & seeking retroactive financing

What support does the project need that are preventing you from moving forward?

- ☐ Project in early stages - need scoping support to integrate energy-related work
- ☐ Need design or engineering support
- ☐ Project has a financing gap
- ☐ Other

If known, please provide the estimated annual emissions reduction (in mega tons CO2 per year) associated with this project. If not provided, PGCC may assist you in calculating this information using the EPA's AVERT Tool.

[Link to EPA AVERT tool](#)

Will the project meet requirements for Davis Bacon and Related Acts (DBRA)? *

To learn more about DBRA, click here. If unknown, please select no.

☐ Yes

☐ No

Will the project meet requirements for Build America, Buy America Act (BABA)? *

To learn more about BABA, click here. If unknown, please select no.

☐ Yes

☐ No

Is the project expected to reduce energy or fuel costs?

Will the project boost climate resiliency and enable the community to adapt to the impacts of climate change?

Will the project support Low-Income & Disadvantaged Communities (based on EPA CEJST map)?

Will the project help employ/contract with Minority/Women/Disadvantaged Business Enterprises (MWDBEs)?

Will the project utilize apprenticeship or other workforce development programs

Is the project expected to create new jobs?

Was there community engagement in this project?

Building Project

Complete the below information if you selected "Building Decarbonization" above.

Building Project Type

Quantity of buildings in the project

Are any of the buildings mixed use?

If so, please describe below (e.g., 1st floor retail, floors 2-4 office space, floors 5-8 penthouse living suites). If not applicable, insert N/A.

Estimated square footage of building(s)

- ☐ <10,000 sqft
- ☐ 10,000 - 25,000 sqft
- ☐ 25,000 - 50,000 sqft
- ☐ >50,000 sqft

Cost of building-related upgrades

Do you plan to upgrade the building to the National Definition of a Zero Emissions Building (a building that is highly energy efficient, does not emit greenhouse gases directly from energy use, and is powered solely by clean energy) by 2050?

Learn more about Zero Emission Buildings at www.energy.gov/eere/buildings/national-definition-zero-emissions-building

Distributed Generation or Transportation Infrastructure Project

Complete the below information if you selected "Distributed Generation or Transportation Infrastructure" above.

Project Type

- ☐ Solar
- ☐ Storage
- ☐ EV Charging infrastructure
- ☐ Other Transportation-Related Project

If applicable, describe the amount of Solar (in kW or MW) and/or battery storage (in kWh or MWh) to be installed.

If applicable, describe the type of EV charging infrastructure or other transportation-related project to be installed. Include the number of chargers if applicable.

Cost of distributed generation or transportation-related upgrades

Project Financing

Will the project leverage other grants (e.g. federal, state, charitable) or tax credits? *

If yes, list all that apply, otherwise leave blank.

- ☐ Elective pay or ITC
- ☐ LIHTC
- ☐ NMTC
- ☐ 179D tax deduction
- ☐ 45L tax credit
- ☐ Other tax credits
- ☐ State grants
- ☐ Other federal grants

Total Project Financing

What is the total cost of your project? This should equal to the "Total Cost of Project" in the project financing excel attachment AND the sum of the "Cost of distributed generation or transportation-related upgrades" and "Cost of building-related upgrades" inputs above.

Please download, complete, and attach the following table about committed funding sources for your project. *

Please use [this link](#).

Note that there is an input for "Budget Gap" - please input the amount of funding that has yet to be committed or the financing gap here. Please ensure that your total project cost equals the sum of the "Cost of distributed generation or transportation-related upgrades" and "Cost of building-related upgrades" above.
