

09/22 #STOPCOPCITY Resolution

WHEREAS a fair and just society where people are empowered to live their fullest lives is a core principle of the labor movement,

WHEREAS the military grade training facility on Muscogee Creek territory would serve as training grounds for police across the country and around the world to suppress movements of working people fighting for safer, more sustainable communities,

WHEREAS the construction of #CopCity is clearly in direct opposition to the needs of working people,

WHEREAS authorities are seeking to crush opposition to #CopCity using tactics the labor movement is all too familiar with - violent policing and prosecutions, and baseless accusations of financial crimes and threats of RICO charges,

LET IT BE RESOLVED that the PSC-GC stands in solidarity with other labor organizations like IUPAT and Home Depot Workers Unite to demand that all political prosecutions and draconian charges against protesters and bail fund organizers be dropped immediately, and that the construction of Cop City be halted.

LET IT BE FURTHER RESOLVED that the PSC-GC will sign on to the Labor Against #CopCity solidarity letter because working people everywhere stand in opposition to #CopCity.

#STOPCOPCITY!
