Winchester Interconnect Shows Connectivity Solutions at MRO Americas 2023

Norwalk, CT—March 16, 2023: Winchester Interconnect™ (www.winconn.com), a leading supplier of high-performance interconnects for mission-critical applications, will be exhibiting at the upcoming MRO Americas 2023 conference and exhibition April 18-20, 2023 in Atlanta, GA

The MRO Americas 2023 conference and exhibition is scheduled for the Georgia World Congress and is spearheaded by a keynote address from Ed Bastian, CEO of Delta Airlines, is the Keynote Speaker. The conference features a two-day (4/19-4/20) Military Aviation Logistics and Maintenance Symposium (MALMS), while the exhibition area includes a dedicated military exhibitors' pavilion for visitors focused on defense and aerospace aviation applications.

ITAR registered and qualified to AS 7003, AS 9100:2016, ISO 9001, and NADCAP quality management systems, Winchester Interconnect brings some of the best in aviation interconnect technology to the MRO Americas 2023 exhibition. Visitors to Winchester's booth 1450 can explore the different interconnection options for their applications from audio and video signals to RF/microwave and millimeter-wave interconnections for systems linking airframes to satellites and 5G/6G networks.

For your interconnects with critical aviation MRO requirements, Winchester Interconnect has multiple solutions, and they'll be on display at MRO Americas 2023 in Atlanta
