

Greetings everyone!! Welcome to the [Gocha Gocha Uruse](#) Remake Fanmade Project! 🧡

This is a fanmade project done for fun and to show love to Neru! The Idea is also to change the animation itself, like making Neru interact with other vocal synthesizers/fanloids (based on the lyrics) instead of looking annoyed at the viewer! You can try new styles of animation, get creative with the idea, or join even if you haven't drawn or animated before!!

This project is strictly non-profit; fan driven. We are not associated with オワタP(Owata-P) the music, lyrics writer and voice editor or the Illustrator 鴨。 (Kamo) of Gocha Gocha Uruse, nor the people who run the [Triple Baka Reanimated Project Account](#). The heads of this project are [Igaku \(@clumzzzzzzzz\)](#) on Twitter(X).

**What's a reanimated fanmade collab project?** It's a collaboration where many fans collaborate together to remake a single new animation. What makes it unique to be a collab is that these fans can have different art styles, animation ways, and ideas since this project's strength is largely the imagination and the creativity of the volunteers!
