

Using the Google Pronunciation Tool

Have you ever wondered if you're saying those words right? The good news is that Google has you covered. There's a Google pronunciation tool that you can easily use to make sure that you are saying words correctly. Check out the directions below to see how to do this.

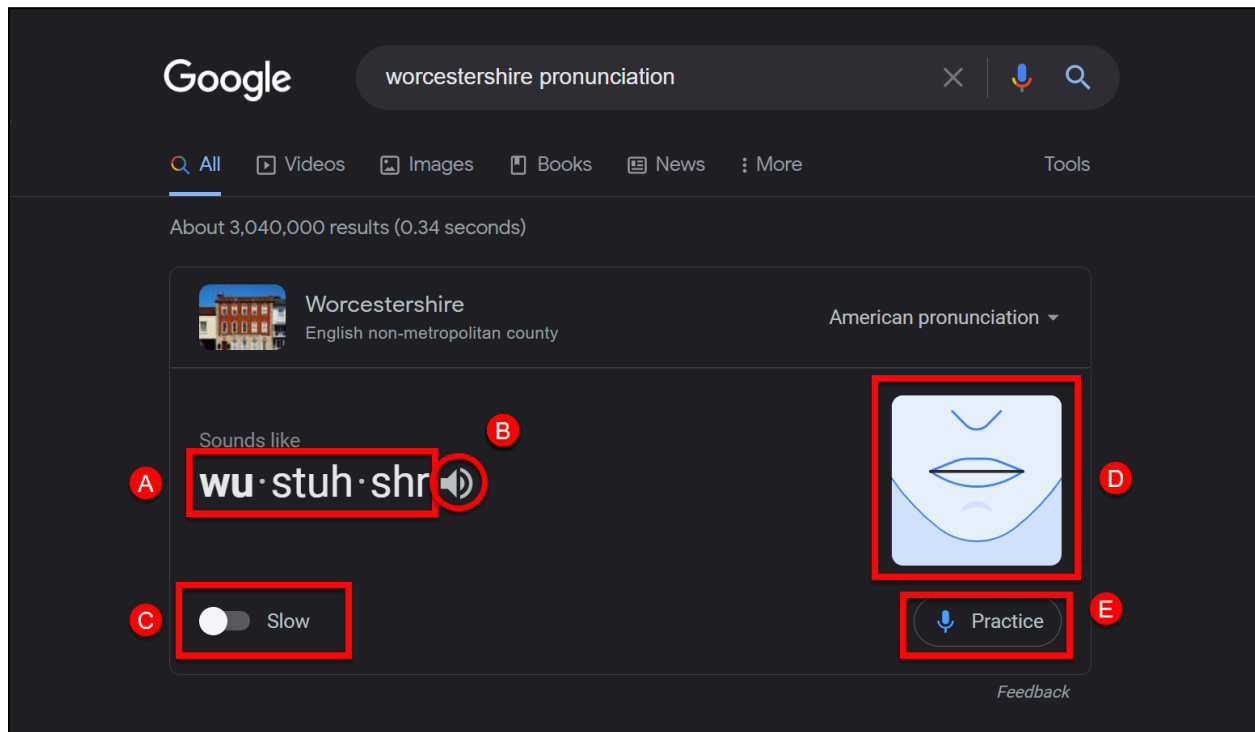

Using the Google Pronunciation Tool:

1. Open a new tab in Chrome.
2. Type into the search bar or address bar the word you want to know how to say followed by the word "**Pronunciation**". (Ex: Worcestershire pronunciation)

3. You will see the interactive tools to use:

- a. Phonetic Spelling
- b. Play so you can hear the audio
- c. Slow down playback
- d. Mouth visualization while the word is spoken
- e. Practice by using your Mic to see if you are pronouncing the word correctly

Check out this video to see how this all works:
