Official Statement on YVU Actions in Nagorno-Karabakh

The Republic of Armenia is adamant about the principles of sovereignty and the ability of Member States to respond to internal, domestic issues as their own body.

As such, in respect for the sovereignty of our great state, we acknowledge the actions of the YVU and their goal of reuniting our Armenian brethren with their rightful homeland.

While we condemn and deplore violence of all kinds, the goal of Armenia is simple: the return of Armenian citizens to Armenia.

This is a domestic matter between Armenia and its rightful territories, and we ask the international community to remove itself from the matter, letting Armenia protect its sovereignty and its rightful people.
