Project Overview:

Welcome to the auditions for our English soundtrack of "My Hero Academia: The Ultra Stage"!

This project is completely fan-made. We have no direct association with the original team who created these shows and songs. This is a fun passion project! We love the songs from the musical and we wanted to make English versions of them. Kind of like what they did for the Death Note musical, since that one was originally in Japanese as well.

This project is managed by Melody Finn (hey that's me), and Melody Snowflake. So expect one or both of us to reach out to you if you get cast.

There are a lot of available roles, and you can audition for as many as you'd like. Below, you'll find the roles and what's required for the audition. To sum it up: For your audition you'll sing one of three choices. Choice 1 and choice 2 are songs we selected that we believe fits the character a bit and will show us some range as well. Or instead you can go with choice 3, which is selecting a song yourself that you think fits this character! And if you'd like to sing more than one song, you can do that as well. It's always nice to hear more! If you have links to other projects featuring your singing, or a singing demo, feel free to link those too.

This project is an unpaid project. Since these songs are not originally ours, we can't monetize the videos we make including them (as is the case for most covers of existing songs). So please only audition if you're interested in being part of this passion project.

Here's a link to a playlist featuring the songs from the shows that we will be singing: https://www.youtube.com/watch?v=jm0pcM3TL7I&list=PLuS9KhQ8PaK1wbya0MrQi1dIhdRZie6Fp

Here's a link to a playlist featuring some videos of the show being performed live: https://www.youtube.com/watch?v=F6uRh47FUYI&list=PLNAoF7xV77ZO5147XJ5_iJAXIcaHjCHCj

One thing to note: Any role under Shinso (other than the 3 choir roles at the bottom), have a note that they have more of a role in plays 2 and 3. There are 3 plays within MHA: The Ultra Stage so far, with a number of songs in each one. I have created English demos for the entire first show so far (starting on the second one soon). With that being said, we will record and have due dates in order of the songs. So any character who has more of a role in the second and third plays may have less to do at first, but you'll get more of a role super soon! (Jiro and Toga are not available to audition for, sorry about that!)

Lastly, the only things the cast will need is: a decent microphone for recording and a Discord for joining the project server. Feel free to leave questions or comments and Melody Snowflake or I will get to them asap! Thank you so much for being interested in our project! Plus Ultra! :D
