

Dear Supporters of For the Future,

We thank you for your continued support! We hope you continue to read our newsletters and tell others about For the Future. The first step to our success will be publicity, and we can not thank you enough for your support, and hopefully for telling others about this business. If you have not already told others about For the Future, we encourage you to do so. It would be a massive help for the business and climate change as a whole because one of the goals of the business is to spread awareness for climate change. Overall, if you share For the Future with your friends and family you are not only helping us but the entire world. We also recommend that you watch the event from last month. It can be found under Event Archive on our website.

Climate Change Article of the Week

<https://www.bbc.com/future/article/20200718-the-revolutionary-electric-boat-powered-by-the-ocean>

This article talks about boats in the Philippines being redesigned to use the waves as a form of energy. This article was written by the BBC.
