

Want me to draw porn of your monster character? Awesome! I love monsters! But there's a few questions I need answered about your monster before I'm willing to draw them dick/titties/etc out.

- Is the monster, undeniably, AT LEAST as intelligent as a human? (if not it cannot consent)
 - Ones that aren't: most zombies, monsters that are just the natural fauna of a fantasy world
- Is the monster physically of-age/sexually mature for its species? (if not it's underage, cannot consent)
 - Ones that aren't: 1000-year-old vampires that look like little girls
- Is the monster mentally mature enough to consent? (similar to point 1 but needs to be included.)
 - Ones that aren't: most Pokémon (who, I would argue, are as intelligent as young children)
- Is the monster capable of clearly communicating consent with some form of language? ("Body language" \neq consent)
 - Ones that aren't: any monster that can't communicate via speech, sign language, telepathy, or in SOME WAY convey words
- Is the monster's design SOMETHING BESIDES a thinly-veiled earthly animal, especially commonly-abused ones (just no)
 - Ones that aren't: "Fully-shifted" werewolves that are clearly just oversized dogs with no hominid/monstery traits

Monsters that are OK:

- Properly monstery werewolves
- Aliens on par with or smarter than humans
- D&D-type dragons
- Most eldritch entities
- Pretty much any monster you can answer "yes" to for all of the above questions

If you answered "no" to ANY of the above questions, I'm still willing to draw SFW art of your character, but I won't draw them in sexual or suggestive situations.
