Rebuttal by Boylan Jan. 28, 1998 (B)

Jan. 30, 1998

Dear Dr. Boylan:

I think it is time you stopped lying about me, defaming me and my research, and spreading the wild fantasies of Michael Wolf Kruvant. I suggest you do some research instead of blindly accepting fantastic unsubstantiated nonsense. Let me be very specific. MWK has claimed to Dun and Bradstreet that he has the following degrees MD, McGill U., 1964; PhD, MIT Theoretical Physics 1968; PhD, Cal Tech (CIT) Computer Science & Theor. Physics 1976; EDD, Cambridge 1977, Educ.; Georgia Tech 1978, Computer science; 1979, J.D., Georgetown U., Law. I take it you haven't noticed how incredible it would be for one man to obtain all these degrees, and still work for the NSC, how absurd to suggest that having a PhD from MIT, CIT

would have accepted him for another, that no papers have been published by this brilliant scientist who somehow managed to avoid premed or any under grad degrees before getting MD and PhD degrees, and who took only a year to get his JD when Georgetown, which of course, has never heard of him under either name , says it takes 3 years???. Further notice MWK claims degrees from MIT and CIT in Physics. Bob Lazar also claimed this (only Ms Not PhD). Clinton's law school was Georgetown. A little glamor by association and can you top this? Not one single piece of documentation has been provided for any of these. MIT and McGill and CIT all denied any connection as did Georgetown and the NSC . MWK makes the same stupid argument as Lazar that his records were wiped clean. I checked with the Legal Affairs Director at MIT.. can't be done. Furthermore having available a record of the fine achievements of even an MJ-12 Consultant would in no way reveal his government activities and connections. The NSC never heard of MWK and also couldn't see how to erase records or what purpose it would serve. This is not for Lazar or MWK a secret Witness program. MWK is in the phone book. MWK says he can't reveal his thesis advisor at MIT. Hogwash. MIT insists that all Theses have the names of Thesis advisors.. Interesting that Lazar uses the same false argument. Named 2 profs that never taught at CIT or MIT... MWK claimed to DB that the New England Inst. for Adv. Research employed 31 people at their Hartford location, his small apartment. You claim that this "think tank" is not at the same location, 30 Gillett St. in Hartford, CT, as as is listed for MWK. WRONG. Call information at 860-555-1212. MWK and NEIAR are both listed at the same address. An apartment bldg. with no other "Organizations" than NEIAR. There are more than 12 other tenants. Call the Reference Desk at the Hartford Library. The Kriss Kross Directory lists MWK and NEIAR at the same address. 30 Gillett. Call the Secretary of State of CT. , the Town Clerk of Hartford, The State Revenue Services Office of CT. I did . There are no listings for NEIAR, or the Paragon Foundation or the Daniel Wolf Foundation. No listings in Foundation directories. These organizations exist as other than phone listings only in the imagination of MWK. If they were real, they would be listed .They have to withhold taxes, file reports, etc. ad nauseum. In (B) you state you never claimed I had a TOP SECRET Clearance. WRONG. In (A) you state I "worked in Top Secret Projects". Can't be done without a TS Clearance. I never ever had one. I have not done classified work, because I haven't had a clearance, for anyone.. industry, government, university or any body else on or off Earth nor as self employed since 1970. You point out in (B)

one can't prove a negative, but you ask me to do so. I never had a clearance above Q anywhere, any time for anybody. Stop lying.

Just how in the world would MWK know I worked on Black Budget Projects (since I never did)? Or was he an expert on Nuclear propulsion systems, which I just happen to mention in all my background sheets, resumes, CV etc. I couldn't if they were Black. and he wouldn't have known about them. But then there is no evidence he ever had a security clearance .I have published articles about nuclear propulsion systems. I used a clip from operation of a Nuclear Rocket in UFOs Are Real and on my CD ROM. My nuclear propulsion work on nuclear aircraft, fission and fusion rockets was NOT connected so far as I know with any black projects. Black projects indeed!

You make in (B) the absolutely absurd claim that one would need an appropriate need to know and clearance to get access to MWK's Degrees. This is pure horse manure. Ask MIT or any other University. I did. Yes, I had conversations with MWK years ago. I did check directories for the APS and other groups. He isn't listed. nor by the AMA. I didn't need to ask him. More lies from you when you claim (B) that WWK's employment with MJ-12 somehow puts restrictions on his being able to provide verification of academic credentials. If Courant located an additional Masters Degree, where is the verification? I will pay for the Xeroxing of all the diplomas covers of theses, transcripts of academic records. There is certainly no verification for any of the others. They are all fantasy. I feel sympathy for this pathetic man dreaming in his apartment and dying of a fatal disease.. for at least 6 years. He dreams of glories. They are all in his head. I have no idea what you think there is to gain by touting a fantasy prone non achiever. I repeat an earlier claim. Put up or shut up.

Disgusted in Fredericton,

Stanton T. Friedman
