

Nothing94 - The **Pedophile** Destroying the FNATI Community

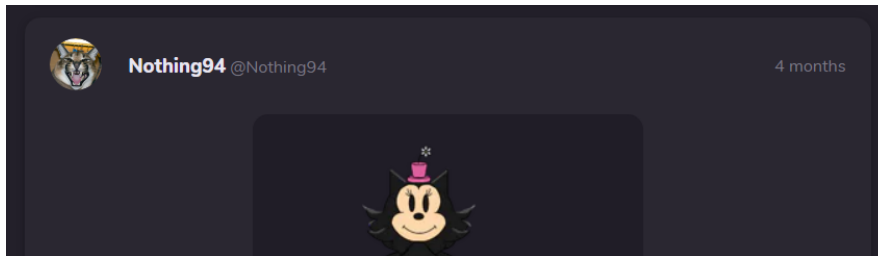

Evidence compiled by Berylicarus/Pipe Cleaner Joe, the [BLA](#)'s Chief Executive Officer, Cabe, Swacker441, Dr. Mortex, Guiwolf, and Timme29/TimmingCulture, the [BLA](#)'s department chief

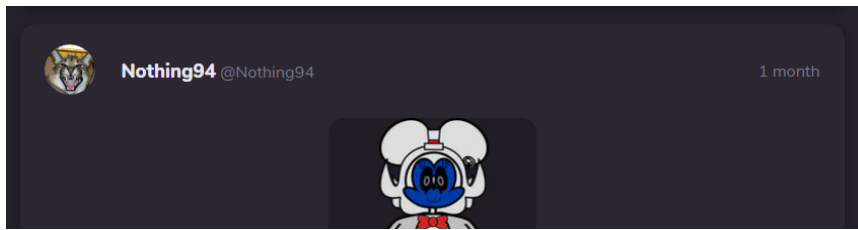

(note that BLA stands for "Beryl Logistics Agency" and yes we know this is our team's 23432th name change)

We present you a document talking about the terrible actions of Nothing94. A FNaTI NSFW artist who used to be known for posting gore and porn to the FNaTI Community before his accounts were banned off of GameJolt. Nowadays, he allows children to enter his FNaTI porn server and get groomed by him.

Section 1: Art

Nothing94, as you may know, is an artist, however has unfortunately used his talent as an artist for gooner slop for greasy dorito eating obese men.

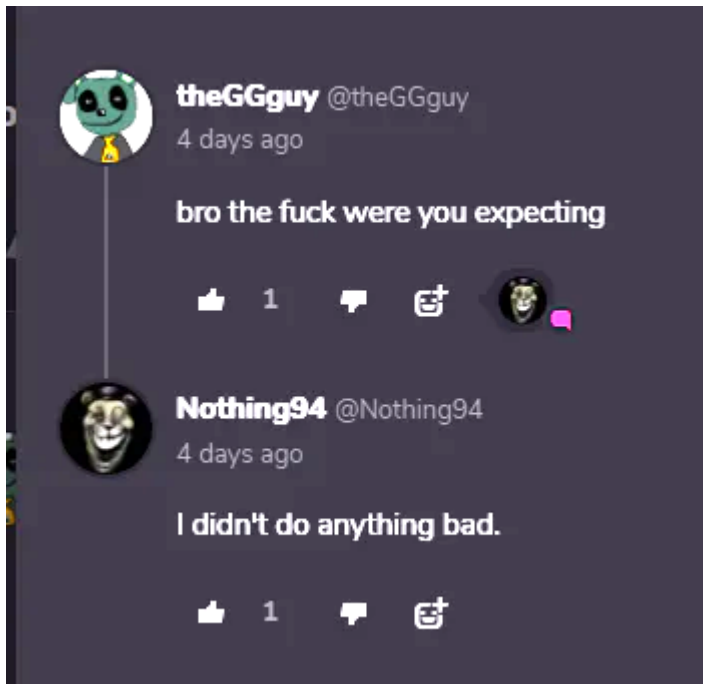

Very oftenly he draws fucking Mickey Mouse characters, and FNATI characters in weird, often sexualized ways, such as bad proportions and revealing clothing. Now, this wouldn't be a problem if it was kept to himself and hidden from the under 18's, *right?* Nah.

1. It's not hidden from people under 18. It's being posted on Game Jolt, which is a platform which has had a bad reputation with sexual/suggestive content being shown to minors. There are no filters you can put on posts that prevent this at all.
2. The characters he is making these sexualized depictions of are **children**. This is proven by Mother's speech in Oblitus Casa, before Night 5, where she states "They were children", along with various disclosed and unrevealed conversations with 14, a developer for the TI series. If you take this into consideration, you'd easily be able to piece together that he's basically making loli material on a public platform for everyone to see.

Even worse though, is that at one point he started posting this stuff on the game's official community on the Game Jolt site. Luckily, he got banned, but he also tried to defend himself with "I didn't do anything bad".

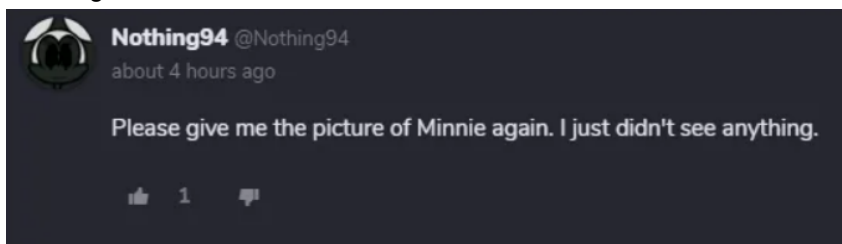

Sir, you quite literally exposed fetish porn to kids. Are you fucking kidding?

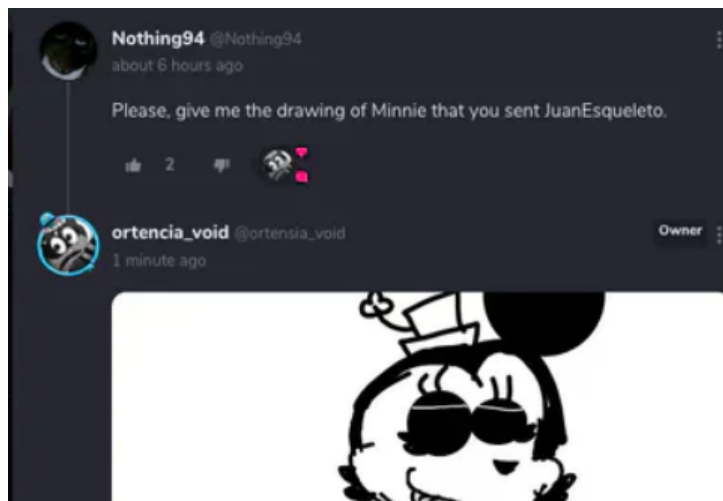

Section 2: Grooming & Other Stories

(pedophiles really are coming out of the woodwork)

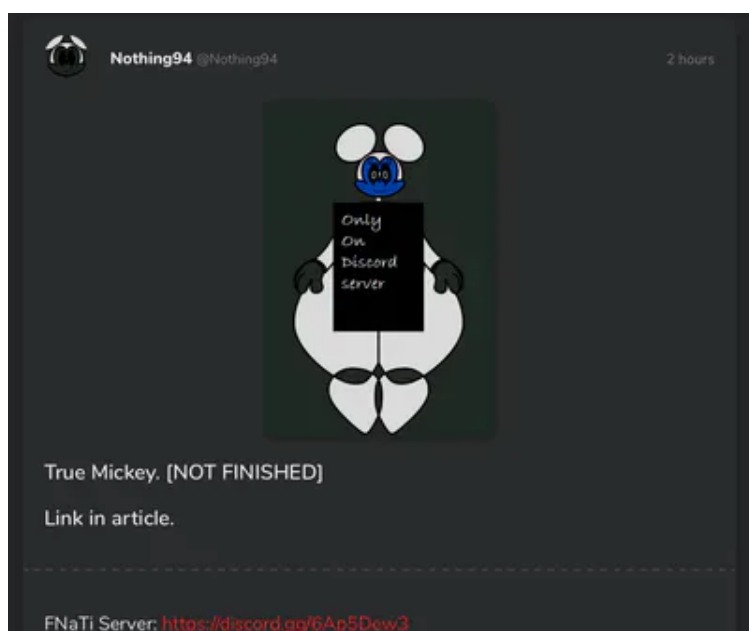

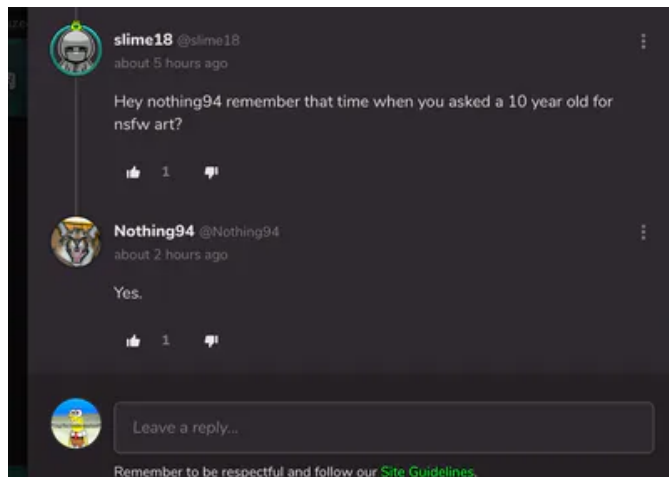

Nothing94 has not only posted unfiltered NSFW for minors to see, but has also **ASKED THEM FOR IT.**

Here are screenshots of him asking a 10 year old with a porn addiction to send him a suggestive drawing, and the 10 year old **ACTUALLY DID IT.** Luckily, as of August 16th, 2025, this person was able to get out of their addiction, and I wish the best for them.

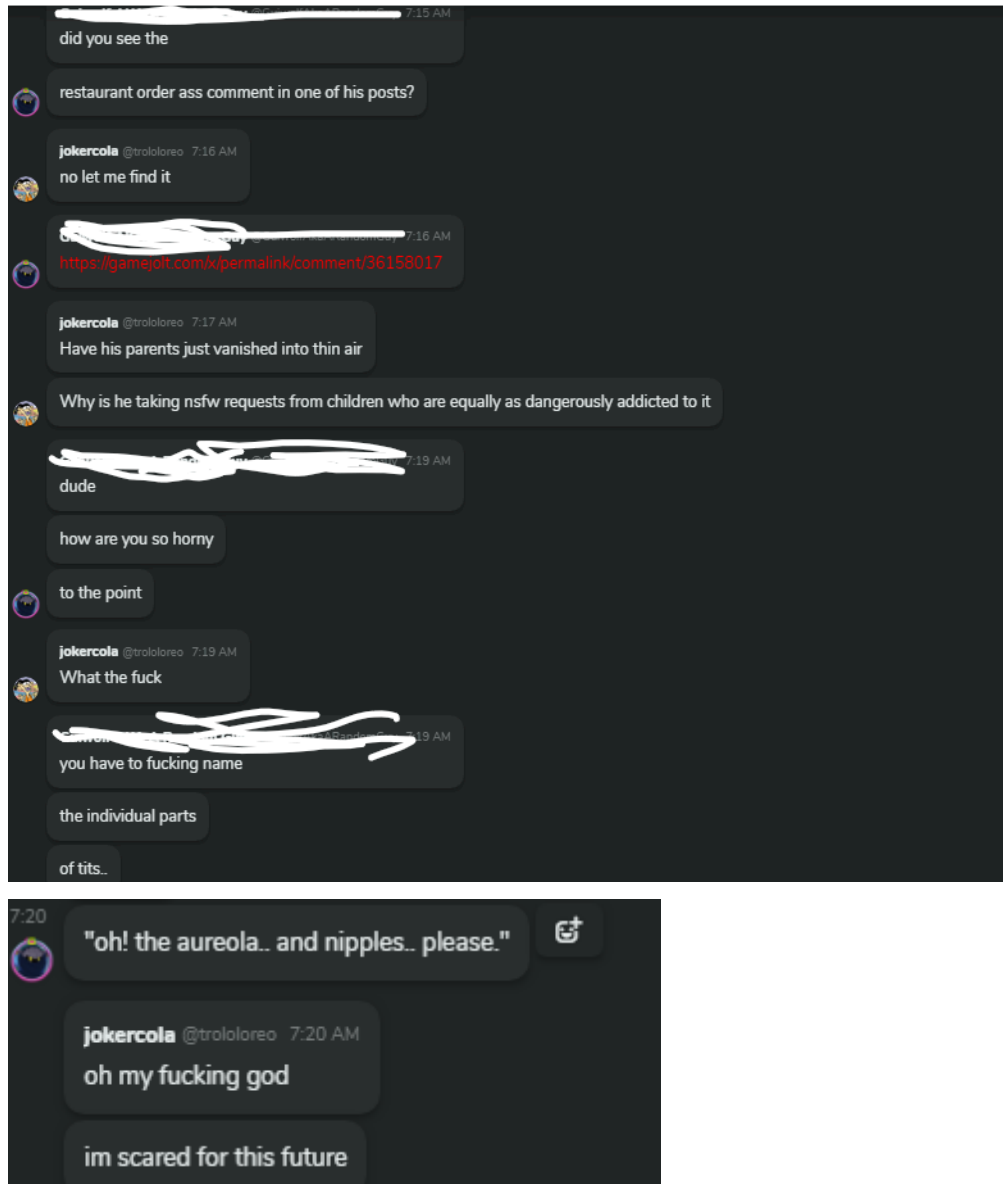

Before you start stating “He didn’t know his age” **Shut the fuck up.** Nothing94 wouldn’t know of the situation unless he had gone to the very post I made about him stating his age. You can even check this comment that states his age and shows Nothing94 confirming that he DID do it!

I only have a testimony for this one from Guiwolf, but Nothing94 has been seen taking NSFW art requests from people under 18.

This next chapter will be the main reason why this person is on Tier 5 on our shitlist, and will reveal more disgusting details than mentioned before.

Section 3: The Server.

If you are not educated enough when it comes to this drama, let me give you the quick rundown:

Nothing94 runs a discord server entirely dedicated to FNATI NSFW content. Now this would be fine, but the problem in this strives from a number of things.

1. Again, the characters he is making this content of are children
2. The server is just out in the open for people to join on his bio. A sane human being **doesn't** do that, they keep the server disclosed to people who ARE 18 or over or atleast has a verification system to do so
3. There is **no** verification system in the server that prevents people under 18 from joining, meaning that little timmies can just wander into there and see this shit.

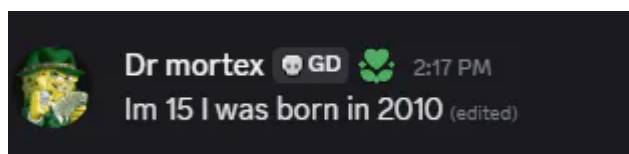

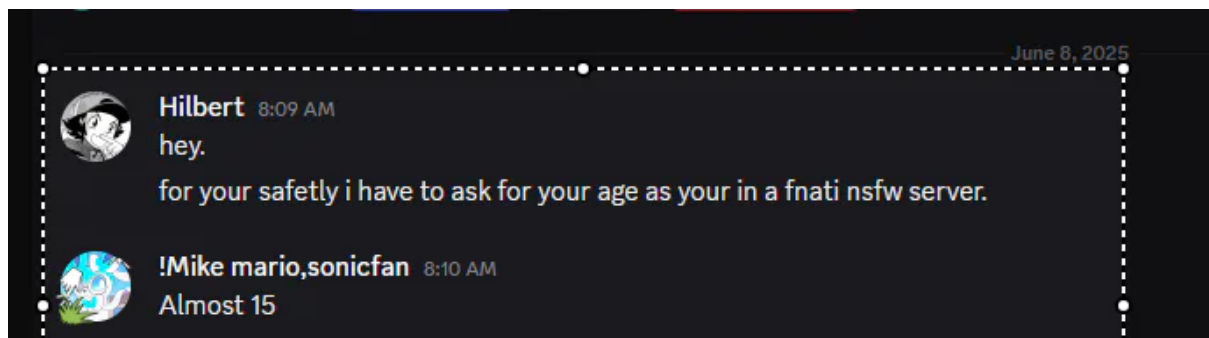

Below this piece of text are a collection of images containing people ranging from different age groups, the youngest being 14 and the oldest being 17.

We already knew about ErynnBob before this whole thing came out. She was **14 years old** and drawing porn, vore, and suggestive art. Clearly, that's **not** ok at all and needs to be checked out. This server does not help anyone: it's full intent is to make the addictions of teenagers even worse, until they become full-on goners when it comes to this stuff.

Age Admissions

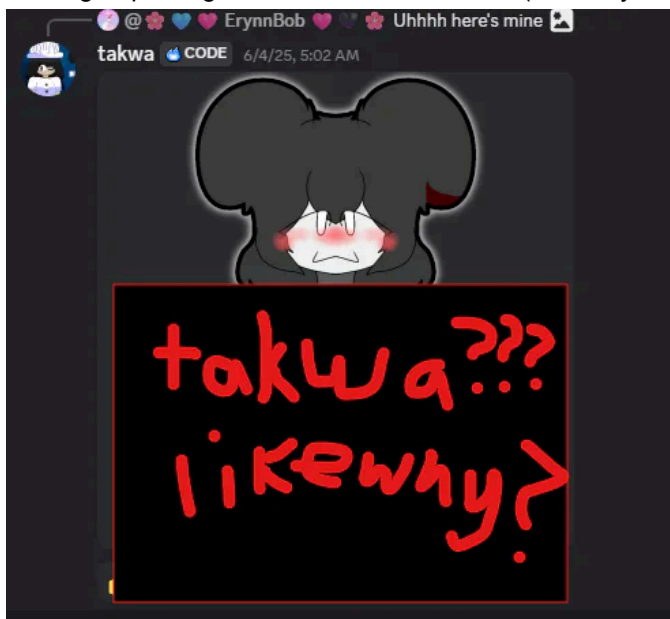

Here are various age admissions made by the members of this server:

Yeah... very 18+ server right here.

Nothing94 posting NSFW art on this server. (made by a minor)

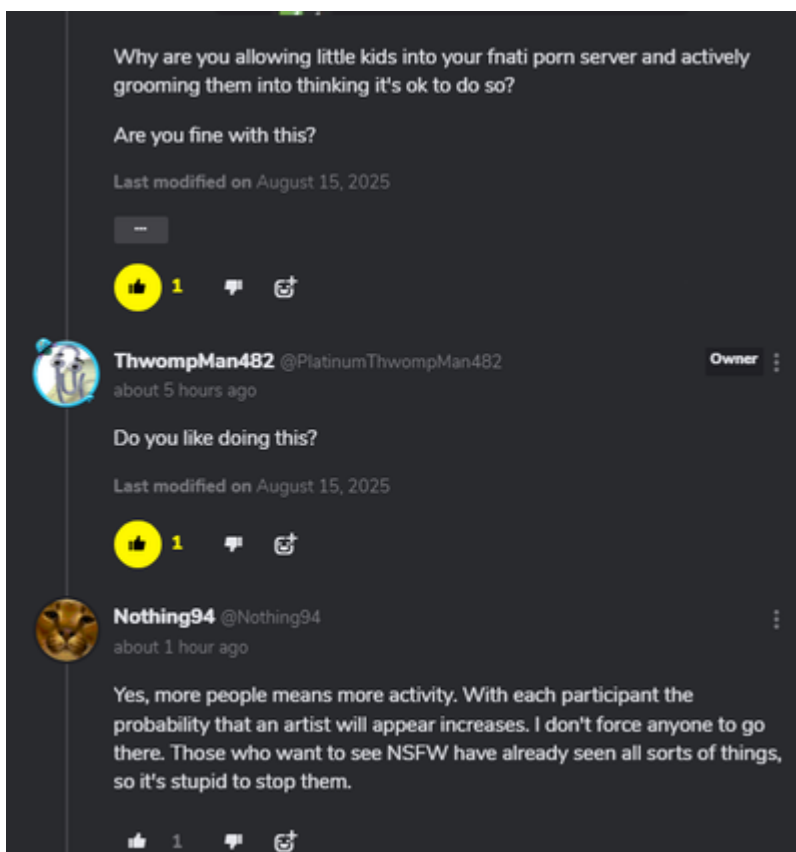

Nothing94 housing a known predator and creep in his server who drew child porn and was in various LGBTQ game jolt groups despite being a Muslim (Which is Haram)

Him being racist.

When I confronted him about the server after he shouted on my GJ page, here's what he had to say to try and defend it:

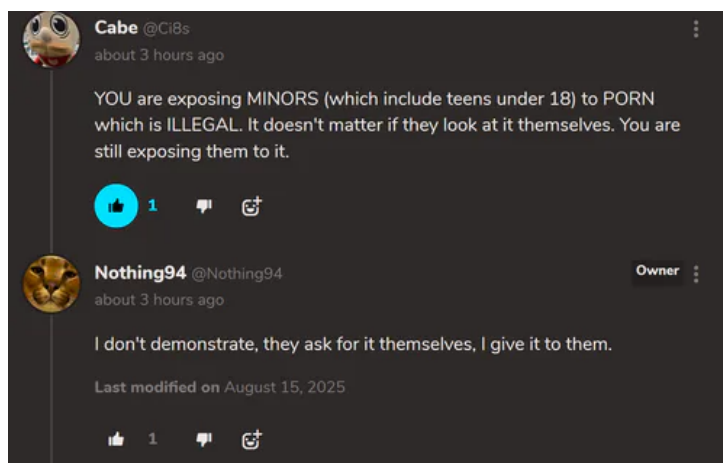

What can we get from that screenshot?

Nothing94 only cares about eyes and attention. You can tell because of his statement that “More people means more activity”, proving he only cares about popularity more than safety. This is obviously **fucking disgusting** and should not be normalized.

He tries to make the excuse that it's fine to allow kids inside of NSFW servers because “They've already seen it before”. Teens may look at porn/NSFW content a lot, but that is no excuse for feeding it to them. People on porn sites do not upload their shit with the intention of minors seeing it. Nothing94 **IS** however, and that is degenerate and **illegal** + he is only making their addictions and kinks worse.

A Deeper Dive.

Below is a dropbox link containing evidence of everything from an argument Ci8s, me and Really Not Him had with Nothing94 on August 15th. During this argument, we discovered a **ton** of disturbing things.

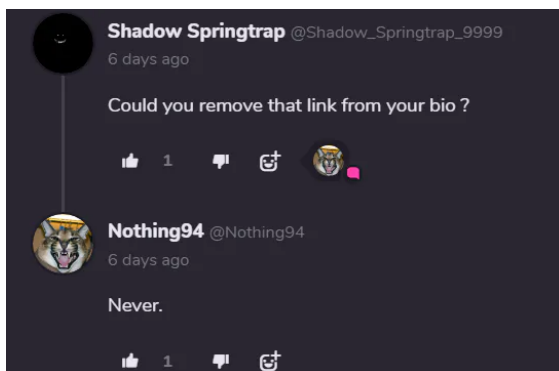

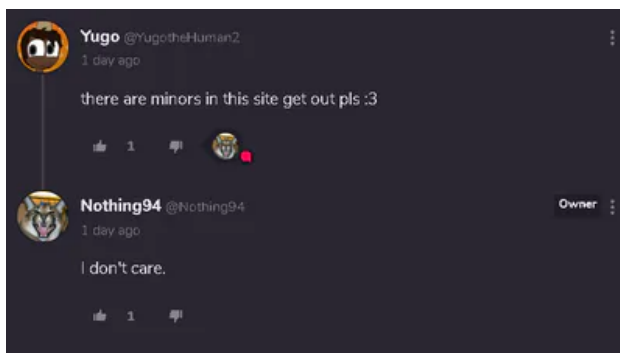

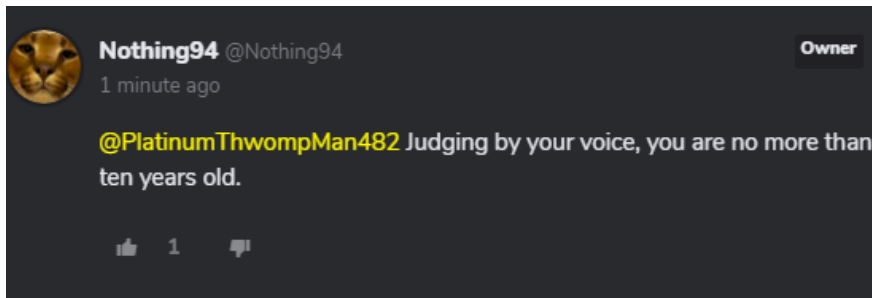

In this screenshot, you can see Nothing **directly admitting to giving teens porn**. This is obviously fucking VILE, and this proves of Nothing's predatory behaviour.

Here is a [hyperlink to a Dropbox folder](#) containing everything I was able to archive from the conversation.

Warning: The videos in this folder contain a ton of vulgar language stated by me (ThwompMan482). I apologize if it offends you and I believe I may have gone overboard when it came to clowning on this guy and insulting him

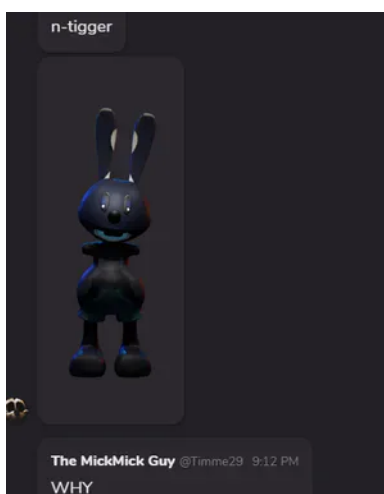

Refer to “Last conversation archive before the others got deleted.mp4” for the latest replies before the whole comment got deleted. I do not have enough time to describe the conversation in its entirety and give arguments to Nothing's points. They can be seen in said video.

Also here he is judging my age by my voice. This person who claims to know a lot about puberty can't even use an **iota** of his brain when it comes to testosterone and the puberty topic.

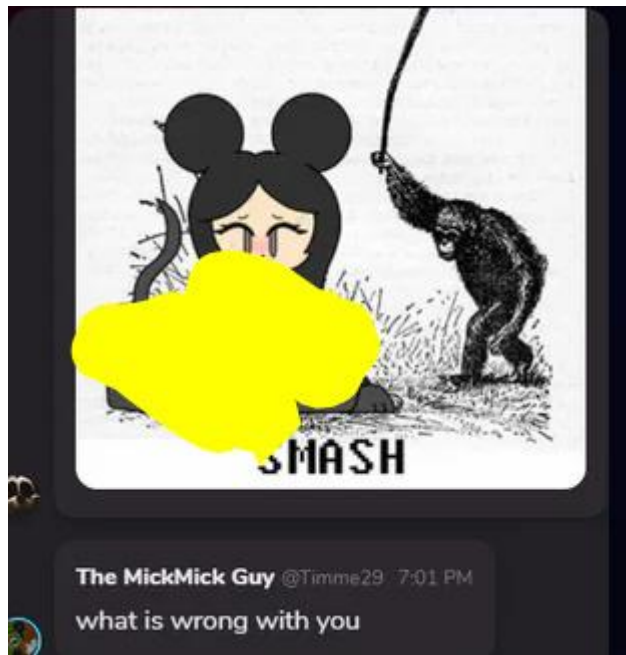

Section 4: Other Evidence

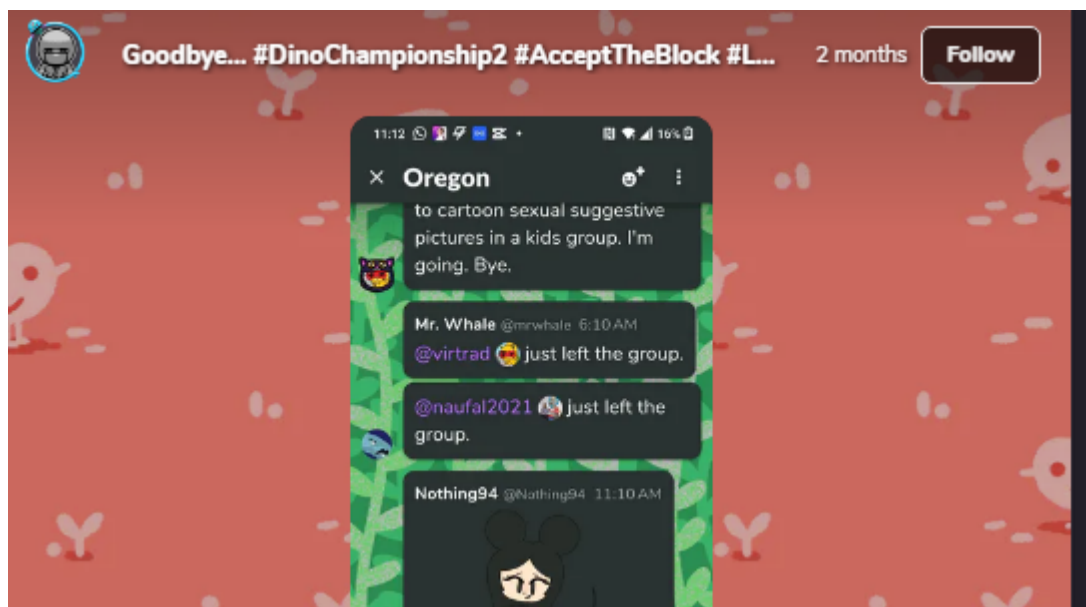

Him being really weird to the **BLA Department Chief** aka Timme29, aka TimmingCulture (who was 12 at the time of these screenshots)

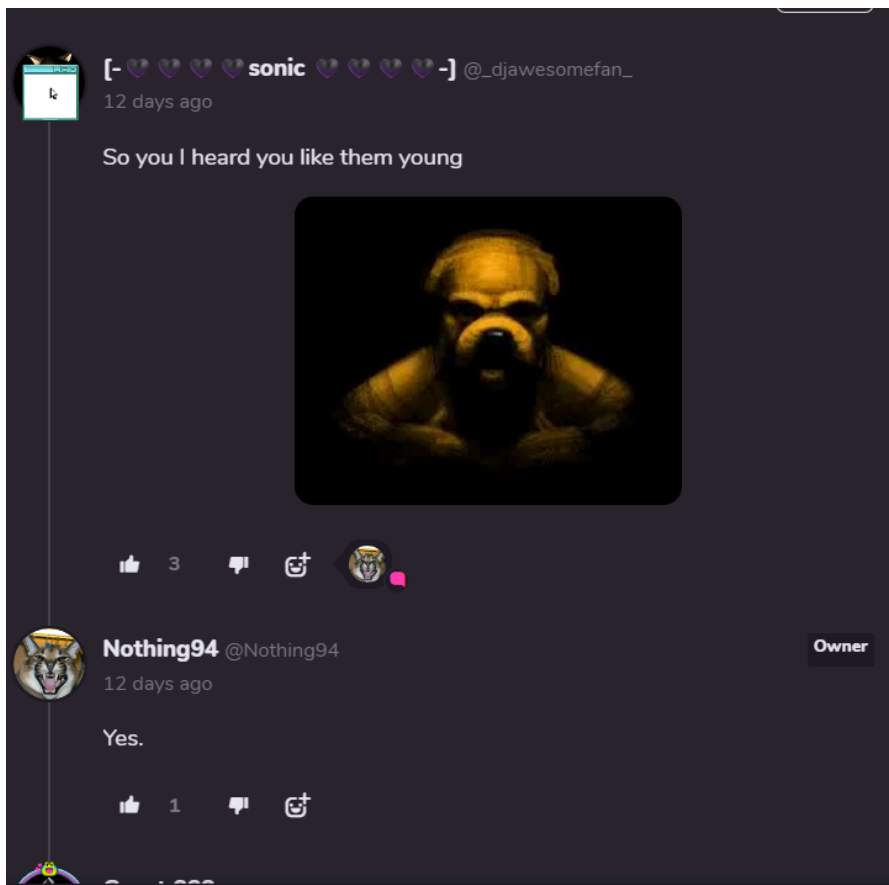

(Him sending hyper art to this 12 year old)

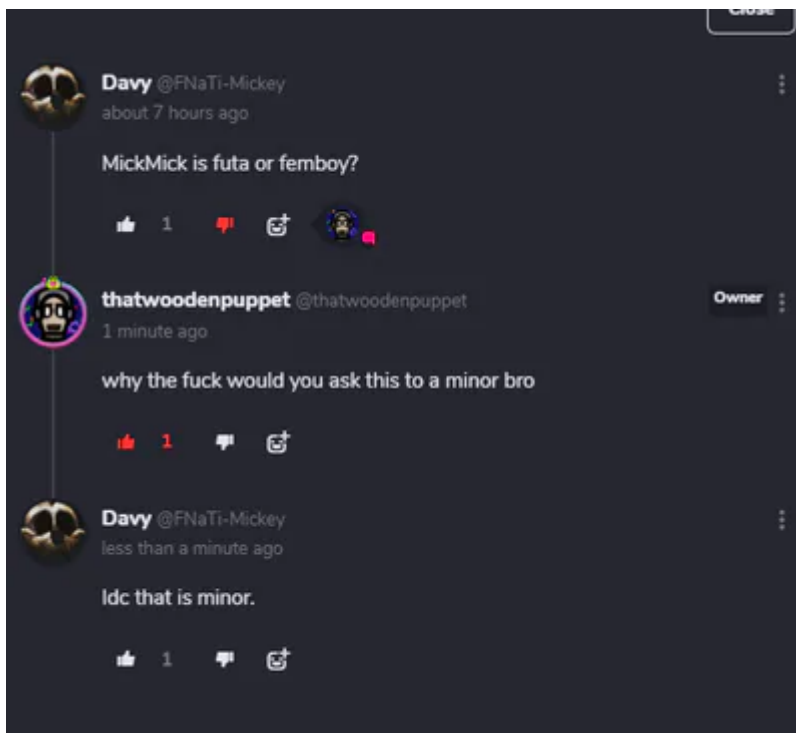

a

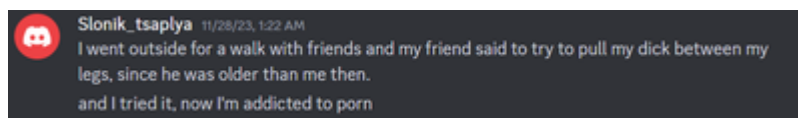

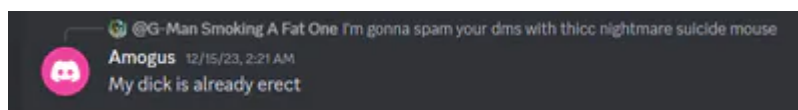

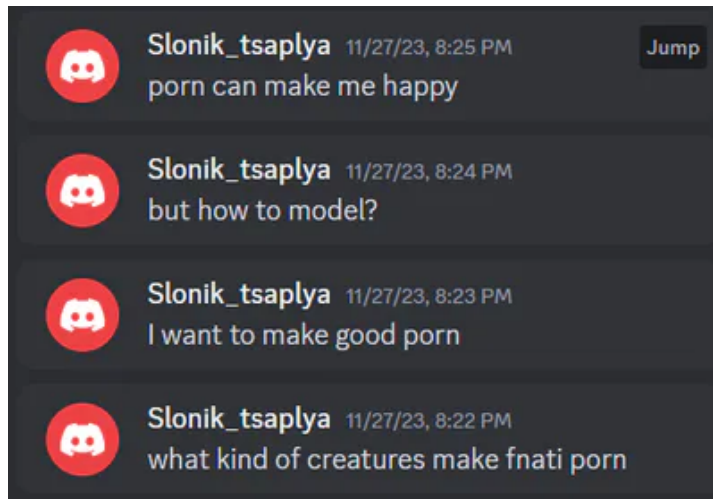

Admitting to “liking them young”.

Nothing94 asking a very weird question to a minor.

Acting very weird in Discord. (This is from 2023)

What can we do to stop him?

The many things you can do to stop Nothing94 are reporting his posts, reporting him, and spreading awareness of his doings with the platforms you have. Share this doc around, make posts about his doings, and make videos if you want to. Hopefully, our combined efforts will be enough to get Nothing94 banned from Game Jolt for good

Summary

In conclusion, it's best that you cut contacts and stay away from Nothing94 at **ALL COSTS**. Report, block, unfollow him, unfriend him, do whatever you can to save yourself from this kiddy-diddler.

Alot more information about this cuck and his doings has been unveiled by Cabe and I, along with a new guest known as FunnySackDude. **Stay Tooned...**
