

Monkeypox Vaccination Access Project

As of 8/23/2022, information about where to find Monkeypox vaccines will be housed at [this website \(mpoxvaxmap.org\)](https://mpoxvaxmap.org). This document will not be updated.

Note: This document is a non-comprehensive, crowdsourced list of where Monkeypox vaccinations are being provided in various U.S. cities while resources continue to be scarce. Much of this information is based on available information online or word-of-mouth. It sucks that it is currently a struggle to get vaccinated and [our government must do better](#).

These are just the locations I know/have heard of at the moment. If any are missing, please message me on Twitter (@urdadssidepiece) or IG (@g.roth) with details! I also do not have time to go back and check every link/email/phone number, so please shoot me a message if anything needs to be updated.

Much love x -Grant

For information on JYNNEOS (monkeypox vaccine) distribution from the Department of Health and Human Services, visit [this website](#). It is updated every Wednesday.

Monkeypox Vaccination Locations

**=info has been entered into database(ADMIN USE ONLY)*

Alabama
