

Week 3: Overload Challenge

Rules:

- Players must submit a 7500 run to be eligible. Their screenshots will be preserved in the Hall of Fame
- Every sync pair used must be of the same role alignment
- In essence, players can choose to do either a mono-Strike clear, a mono-Tech clear, or a mono-Support clear. This applies for the entire challenge, so all pairs for all rounds must share the same role
- All eggmons can be used as long as they match the role alignment respective to your clear (so if you're doing a mono-Tech clear, then Tech Blastoise can be used, but Strike Blastoise and Support Blastoise cannot)
