Alumawood Patio Covers Wildomar

Alumawood Patio Covers Designed for Life in Wildomar

Transform your backyard into a comfortable, shaded retreat with **custom Alumawood patio covers** designed specifically for Wildomar homes. At *They Build Aluminum*, we specialize in crafting high-quality patio covers that look like wood but **last far longer**—without the maintenance headaches.

If you want more use out of your outdoor space, Alumawood gives you shade, style, and peace of mind—all in one.

What Makes Alumawood the Smarter Choice?

Alumawood is the perfect blend of **style and substance**. It delivers the natural, wood-like appearance that homeowners love, but it's made from **durable aluminum**, built to withstand the harshest conditions.

No termites.
No cracking.
No repainting.

Just long-term performance and low upkeep.

It's ideal for Wildomar's warm, sunny weather—and for homeowners who don't want to spend weekends sanding, sealing, or repainting aging wood beams.

Solid, Lattice, and Combo Covers Available

Every home is different. That's why we offer multiple Alumawood styles to fit your yard and lifestyle.

Solid Roof Patio Covers

Want total protection from the elements? Go with a solid roof. These patio covers fully block sun and rain, creating a cool, dry space for relaxing, barbecuing, or hosting gatherings all year long.

Lattice Patio Covers

Prefer light with a little shade? Lattice covers are the answer. They let in filtered sunlight while still offering relief from the heat. Plus, you control how much coverage you get by adjusting the spacing of the slats.

Combination Covers

Get the best of both worlds with a combo cover. We can design a structure with a solid section for full shade and a lattice section for dappled light. It's a popular choice among Wildomar homeowners who use their patios for multiple purposes.
