Hello Sweet Home Parents and Students,

Please use this guide in order to get started using your iPad at home. This brief guide is meant to help you get up and running and will take you through start-up to Wi-Fi connection.

Turning on the iPad:

1. Wake the iPad by tapping the home button or holding the power button until the screen lights up.
2. Your lock code is **1234**

Connecting to Wifi:

1. Locate and open the **SETTINGS** app.
2. Tap on **Wi-Fi** on left side menu
3. Find your network name (if you don't know it, you can find it on the back of your wireless router in your home along with your password)
4. Tap on the name of your network and enter the password.

The **Gmail** app can be used by your child to contact their teacher to ask questions as well as get information that may be sent out by their teacher. To connect:

1. Open the app icon shown above.
2. Your student may be logged in already...if not:
   a. Tap "sign-in" at the bottom
   b. Enter an email address - lastnamefirstinitial@students.sweethomeschools.org
   c. Enter password - **sweethome**

Student email credentials should be sent home with your child in the event they need to log in to an account.

Student Help Feature

→   HELP Button icon on the main screen for students to click on to receive help if they are having a technology issue!
