Instruction Journal

Goals for my teaching

- **(Reflect on your goals for your instruction - what do YOU want it to look like?)**
- Allow students time to talk about their information experiences
- Bring in more conceptual Framework concepts for discussions
- Evaluate instruction to ensure it is relevant, thought-provoking and asks effective questions
- Create instruction that provides students with opportunities to critically think about information processes

Class Name - Date - Number of Students

- POSITIVES:
    - What went well?
    - Were there any really positive student interactions?
- IMPROVEMENTS:
    - What could be improved?
    - Did students provide any suggestions?
- RESULTS:
    - Is there any data you want to track about this class?
    - How did they perform on any assessments you gave them?
