About our Signature Albums:

At Amleya Clarke Photography, we pride ourselves on creating customised imagery and image products for our clients. All album orders can be customised. Just let us know what you would like and we'll give you a quote. There's a lot of options out there though, so for those of you that wish a more simplified process in choosing your album I offer this simple album line. These are luxury and durable yet affordable albums that I know many of my clients would love.

The album page design and layout is custom designed by us and then the albums are printed and hand-crafted in the US from a quality brand that I trust. They are a flush mounted design with organic substrate mounted pages. Images printed within are true silver halide prints of Fuji portrait grade paper for excellent colour reproduction.

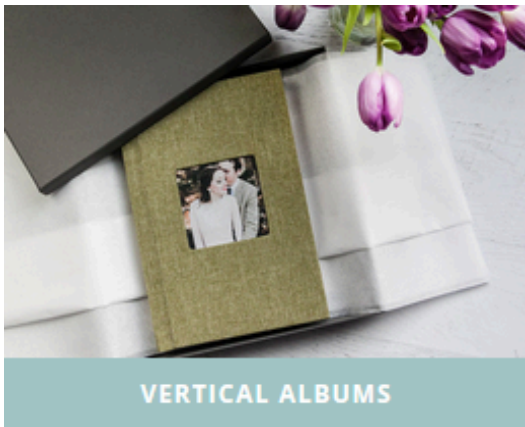

Customization!

We still love to provide you with flexibility. Each album order comes with the option of 20-50 pages and 8 colour options for the fabric cover. There is a choice of 7 size options and options for a plain fabric cover, an inset cameo image cover (option shown in first 2 images below) or an image jacket or band (image band shown in image on bottom right).
