

JD For Director of Ethical Hacking

Job Title: Director of Ethical Hacking

Company: [Company Name]

Location: [City, State]

Job Description:

The Director of Ethical Hacking is responsible for leading the company's efforts to identify and mitigate potential security vulnerabilities in the organization's systems and networks. This includes conducting penetration testing, vulnerability assessments, and ethical hacking to identify and address any potential security risks.

Key Responsibilities:

- Develop and implement strategies for identifying and mitigating potential security vulnerabilities
- Conduct penetration testing, vulnerability assessments, and ethical hacking to identify and address any potential security risks
- Collaborate with other departments and teams to ensure that all systems and networks are secure
- Monitor and analyze security trends and threats, and identify areas for improvement
- Provide training and education to employees on how to identify and mitigate potential security risks
- Develop and maintain relationships with key stakeholders, including management, employees, and external partners
- Continuously evaluate and improve the company's security operations

Competency Requirements:

- Strong leadership and strategic thinking skills
- Excellent communication and interpersonal skills
- Proven experience in ethical hacking and security operations
- Strong problem-solving and decision-making abilities
- Ability to lead and manage teams
- Strong analytical and data-driven approach to decision making
- Strong attention to detail and the ability to multitask

Qualifications:

- Bachelor's degree in computer science, information technology, or a related field
- At least 8 years of experience in ethical hacking and security operations
- Advanced degree in computer science, information technology, or a related field is preferred
- Professional certification in ethical hacking or security operations is preferred.
