

Florian Lintl

Operational Director, TUM Venture Labs

Florian Lintl is the Operational Director of the TUM Venture Lab, a joint initiative by the Technical University of Munich and UnternehmerTUM focused on fostering innovative, scalable businesses and building a leading European DeepTech hub. Previously, he served as Consultant for Innovation & Project Management at EurA AG for five years, where he managed European R&D networks and supported innovation management for SMEs. His experience includes roles at Fraunhofer-Gesellschaft's FDays Accelerator and several innovation projects with UnternehmerTUM GmbH.

Florian holds an MBA in Innovation & Business Creation from TUM School of Management with an exchange program at UC Berkeley's Haas School of Business. He completed a Master of Science in Environmental Planning and Ecological Engineering at Technical University of Munich and conducted entrepreneurship research as a Visiting Student Researcher at Stanford University.
