

S.L: New Ideas for [brand name]

Hi Chris,

I came across the outstanding work you've been doing with your clients and I must say, I like that you provide a lot of testimonials on your Instagram,

it helps your followers understand how committed you are to helping them achieve their desired fitness goals.

That is why I am reaching out to you today.

First impressions matter, especially when it comes to your website.

If you had an extensive text showcasing your program, it would drastically help people understand how different and great your online Personal Training really is.

So to showcase how this would work, I created a video for you.

In it, I rewrote your What do you get section to be more precise and extensive, so potential clients can trust you more.

And, there is some more extra info about enhancing the website.

Such as the Why Choose Online Coaching section which is so hard to read that your readers would not even bother.

These changes can be **crucial** for getting more clients and recognition.

An appealing and user-friendly website can elevate Omega Aesthetic to another level.

And I would like to work with you to transform your website into a captivating platform showcasing professionalism.

I didn't want to scare you with a random Loom link. So just reply 'Hey Ante' and I will provide the link.

Also, feel free to reach out with any questions. I look forward to your response!

Kind regards,  
Ante Matijević
