

# *New World Spirit 2 Page Vision*

The world is on a double exponential curve towards self-destruction with the Metacrisis and Polycrisis: the first is about the lack of cooperation to solve the second which is about the existential threats of AI, CRISPR, WW3, Climate Change and Mental Health Crisis. An exciting new solution is budding called New World Spirit based on a speculative kind of universal logic missing in the contemporary power structure of the world. There are two main problems that must be solved to change the world at a double exponential rate which requires nothing less than sparking a critical mass movement globally: #1.[Absolute Idea] developing a robust idea that can unify contradiction and generate concrete universal cooperation without destroying diversity in its essence/wisdom, #2. [Critical Mass] having this idea known and integrated into global consciousness rapidly, powerfully and peacefully once developed.

## **#1. [Absolute Idea]**

Name: New World Spirit (NWS)(instead of New World Order (NWO))

Short Slogan: A miracle is happening and we all are the spark.

Merit: Based on nomadic wisdom, 133 philosophers of the last 10,000 years of ancient and modern wisdom predominantly based on the true understanding of Hegel where the contradiction between them as Left and Right Hegelians is sublated or harmonized into a speculative logical whole exemplifying quintessential cooperation. This is the universal logic. Hegel's Encyclopedia Of The Philosophical Sciences and Marx's deepening of dialectical politico-economics.

Problems Solved: Developing a culture of wisdom. Hegel, integrating the wisdom of 133 philosophers, solves 200+ contradictions currently existing in our fragmented ethos globally. Current ordinary diplomatic logic is not enough to resolve these contradictions, however, Hegel's logic is. The top 3 quick-win dialectical tensions that need sublating out of these 200+ are: a. male/female/LGBTQ2A+, b. capitalism/socialism/communism, c. art/religion/philosophy(science). New World Spirit teaches all 200+ in a new Curriculum Of Absolute Spirit and an anti-cult onboarding process rooted in ivy league academia and worker grassroots movement.

Layout: New World Spirit has 3 main areas

**Area 1:** Culture: generating the education system on [genuine philosophy](#) and wisdom to create a language of universal cooperation that is rational and "mystical" (not merely superstitious). This universal logic underlay language and solves the alignment problem not only with human cultures but also solves the alignment problem with Artificial Intelligence. [Universal Sublation Challenge](#) will be a tournament to galvanize the uniting of the movements worldwide.

**Area 2:** Labour: Once a language of cooperation is developed, beingness must act in doingness. A global worker-owned cooperative social enterprise app named WEWA (the Worldwide Essential Workers App) will satisfy the 4 criterion for cooperative economic games based on flow state psychology and the universal logic of non-alienated labour.

**Area 3:** Health: Once the cooperative culture and labour coordination process are concretized, a benefits package is provided as part of a new global universal healthcare for NWS and WEWA

citizens. The package offers concrete holistic healthcare satisfying all 11 Life Areas of genuine well-being simultaneously. We hope to own any CRISPR cures to prevent debt slavery or offsetting of wage increases from WEWA in the case that citizens eventually deem them safe or morally/spiritually ethical enough to use.

## **#2. [Critical Mass]**

CM1: [Super-Hungerstrikes] In order for the universal logic to have pragmatic effects it must have access to law and policy implementation. A legal case around 47 human rights violations is making its way to the Supreme Court in Canada with the power to expose the hegemonic structure and make a set of policy reforms that can develop into an international *class action lawsuit* on human rights. Worldwide hungerstrikes are non-violent/Gandhian.

CM2: [The Nobel Surprise] The Ukraine/Russia, and soon to be China/USA, wars have amplified a screaming match in the middle of an AI double exponential explosion. There must be an accreditation of the New World Spirit to prevent current hegemony from delegitimizing the power in cult or other social tactics. The Absolute Idea (theory of everything) and universal logic of Hegel and Marx as well as 133 philosophers of history is astonishing enough to map out a backbone of wisdom which can win all 6 Nobel Prizes simultaneously. ChatGPT estimates that 1 billion people will pay attention immediately including all 400+ living Nobel Laureates, far exceeding the 3% population requirement of critical mass. All other prizes outside the Nobel Prizes will also be applied for to add to the accreditation and recognition process in the norms of contemporary culture as a way to move beyond it peacefully in the spirit of sublation.

The Nobel Surprise (10 hour version 2.0)

<https://youtu.be/cKEtPIrYrNY>

Nobel Physics Prize: 26:22 - 44:15

Nobel Chemistry Prize: 44:15 - 1:18:09

Nobel Medical Prize: 1:18:09 - 1:45:39

Nobel Economics Prize: 1:45:39 - 2:34:48

Nobel Literature Prize: 2:34:48 - 3:16:23

Nobel Peace Prize: 3:16:23 - 4:29:26

CM3: [Hollywood Movie/Docu-series] Once the accreditation process is underway with the world's best from all camps working on the Nobel Surprise, popular culture will be engaged through Hollywood, Bollywood and other global media to express a narrative way of communicating the "Universal Story Of Being" in a potentially infinite combination of sensuous themes. The script is written collectively in Constitutive Identity politics (CI).

## **Conclusion**

With these two solutions. #1[Absolute Idea] and #2[Critical Mass], we have a realistic moonshot to achieve peaceful revolutionary change in 10 years or less. In an ideal spirit of sublation it may be possible to make critical inroads in the next 1-2-3 years before World War 3 starts in earnest over Taiwan. It is crazy, but crazy enough that it just might work. There are very few, if any, other solutions being proposed at this scale with studies showing hopelessness growing across

nations. The New World Spirit may be a ray of hope: the Owl of Minerva takes flight as the shades of darkness gather.
