New CallHub campaigns are up and running! With your help, we can flip the House, the Senate and the States this November!

And here are some handy cheat sheets you can use to provide additional information if a voter wants to know more about their deadlines and/or ability to vote in state elections:

[2018 General Election Deadlines - by State](#)

Provides deadlines for each state for voter registration, ballot request and voted ballot return, with transmission method (email, fax, mail or online) indicated where applicable

Chart of state rules pertaining to overseas voters participating in state elections, divided into "Intend to Return", "Return Not Certain" and "Never Resided" overseas voters

There are five global campaigns divided by time zones. As before, any volunteer may join any campaign--you will only be able to call voters at times that are appropriate for their time zone.
