Nollars

Nollars is a DeFi project that integrates with the secure Layer 1 of Ethereum and scales with Layer 2. NollarsDAO will open the door for Nollars to offer its customers instant access, low-fee transactions, and 100% transparent community-driven governance. Nollars is an all-in-one, secure, future-proof decentralized infrastructure supporting cross-chain interoperation, app development, and meme coin trading.
