History of Pokemon

Some may ask what are pokemon cards are for collecting to battle people. Satoshi Tajiri created Pokemon in 1965.

Satoshi Tajiri was born on August 28 1965. He met Ken Sugimori in school and they became friends. They started a gaming magazine together with his friends called Game Freak but after a while he decided to start making his gaming company. In the 1990 Satoshi Tajiri came up with a good idea to make a game that's called Pocket Monsters. They were inspired by their childhood because in their childhood Satoshi Tajiri collected bugs.

In 1990 they presented their idea to Nintendo. At first Nintendo did not want the idea but then they wanted the idea and bought it.They worked on it for 6 years. Finally on 27 February 1996 the release of pokemon for gameboy happened.

Satoshi Tajiri and Ken Sugimori worked together to make the most popular game, Pokemon.
