

STUDENT PROTESTS, DEMONSTRATIONS AND STRIKES

Procedure for handling student protests, demonstrations and strikes: If a student protest, demonstration, or strike occurs at school the superintendent will consult with the Building Administrator to ensure that the instructional/educational process is not being disrupted due to the above actions. If the educational/instructional process is disrupted or student safety is a concern, the Building Administrator will act to curb or stop the protest, demonstration or strike. Steps will be taken to assure the “student protestors” that their ideas and concerns will be listened to if a strike/protest is curbed or halted.
