What Is Pushable?

Pushable is a cloud-based autoresponder for WEB PUSH notifications.

These subscribers perform FAR BETTER than email leads - just look at this...

WHICH IS BEST: 1,000 Push vs. 1,000 Email Subscribers?
ANSWER: Only ONE Can Blast Out Job-Killing Income!

vs

2.9% CTR
\$21 COMMISSION

10.6% CTR
\$312 COMMISSION

Tracking Code	Unique Hops	Sales	Hop Conv.	\$/Hop	Earnings
mail1k	29	2	6.9 %	\$0.74	\$21.32

Tracking Code	Unique Hops	Sales	Hop Conv.	\$/Hop	Earnings
push1k	106	15	14.2 %	\$2.95	\$312.40

Push Notifications EXPLAINED

Web push lets people subscribe to your list DIRECTLY, in 1 CLICK, with NO autoresponder. And once they sign up, you can basically get TRAFFIC ON TAP - by sending a message (broadcast or followup), in less than 60 seconds - DIRECTLY & INSTANTLY, into their browser, with huge images & clickable buttons...

The image displays three promotional banners for different services:

- InstaZign:** A banner showing a laptop displaying social media posts. Text includes "Get Free Traffic, Leads & Sales with 'AI' Design Software" and "Google Chrome • bots.pushcrew.com". A button at the bottom says "CREATE DESIGNS WITH A.I."
- WarriorPlus:** A banner showing a dashboard with a table of sales data. A red circle highlights "Combined Earnings: \$5,472.83". A button at the bottom says "GET 15 AFFILIATE FUNNELS".
- Affiliate Accelerator:** A banner showing a laptop with a "FINISH AFFILIATE" badge. Text includes "PROFIT - AS AN AFFILIATE" and "YOUR EARNINGS: \$617.22". A button at the bottom says "PROFIT - AS AN AFFILIATE".

And do it over-and-over, 24/7, driving targeted buyer traffic... to any website or affiliate link... with no deliverability issues!

Now, this is different to notifications on your phone (which have been popular for over a decade, and are the bedrock of Apple & Google's empires)

I'm talking about BROWSER notifications, especially to DESKTOP devices (where all the buyers are!)

These just plain work, get massive deliverability, huge clicks, and allow you to send fast buyer traffic...

Plus, since very few people are doing it, you don't need to worry about people getting 'inbox blindness'.

And best of all, it's SO easy to do...

You simply add one line of code to your website...

Then when people click "Yes" to signup...

They're instantly added to your list!

These are rich media that drive massive clicks - and convert *even better* than warm, pre-sold email blasts! This image says everything.

Maybe I should just throw this up with a buy button?...

PROOF: 1,005% The Clicks Of Email, 305% The Open Rates, 10x Faster To Send & It's so NEW, You Don't Even Know It Exists...

			
Send 1.030% more clicks than email per subscriber	Blast a message in less than 1 minute + deliver in 1 second	Subscribers worth 10.5x the commissions & profits of email	So cutting - edge, less than 1% of marketers even know about it...

So everyone knows they should build a list... everyone's tried it (and probably failed)... so the core pitch is obvious - and everyone will want this new push technology...

But here's why this specific deal - Pushable - is so nuts (and why scarcity is going to be so AGGRESSIVE with this one:::) **We are practically GIVING AWAY this lifetime autoresponder** (others charge \$97+ per month for a fraction of our features) - so expect INSANE frontend conversions on this one...

We wanted to make our first solo launch in 2 years a MONSTER!

Frankly, I'm supporting multiple other people with their launches, so won't be doing too much JV recruitment here.. BUT that means those who do hit this will convert like crazy (ever found one of those "FIRE" offers that no-one else knows about? This is it!)

Expect this to drop like a bomb on day 1... make sure you hit HARD and hit EARLY.

This is a short launch, so many top JVs will miss this... then try to jump on late.

But by then, most of the commissions will have been earned - by YOU!

FRONT-END PRICE INCREASES - PRICE INCREASES EVERY HOUR = \$EPCs!

We have learned that scarcity results in AWESOME conversions for affiliates.

So we are increasing the price EVERY HOUR...

THE PRICE WILL INCREASE BY \$0.10 EVERY HOUR, SO CONVERSIONS WILL BE VERY STRONG, ESPECIALLY EARLY ON!

***PLUS*, we are running hourly dimesales on ALL 5 CUSTOM UPSELLS.**

***PLUS*, we are closing this down PERMANENTLY on Tuesday (a SHORT, 5-DAY LAUNCH with MEGA-SCARCITY THROUGHOUT THE FUNNEL!)**

⇒ OUR NEW FUNNEL

The frontend for pushable is smoking.

But the upsell funnel is absolutely stacked.

Expect the frontend to be your best-performing f/e offer in a long time... and then the upsell flow is going to make your EPCs NEXT LEVEL! We studied over \$100k of promos, dissected the top converting upsells (pricepoints, core offers), reverse-engineered their copy and design... and then built THAT. x5 over.

Frontend - Pushable - \$15-23 (hourly dimesale!)

The core software that lets people build a push list - including a DFY push website builder, training, case studies and much more. Includes LIFETIME push autoresponder software that cost us \$10k to build... and has made us over \$50k in

commissions - now available at a ONE TIME LIFETIME fee (others charge \$97+/per month for this)! This has been tested internally - to \$100k+ in easy sales. We would have kept it as an internal offer, but wanted our first solo launch in 2 years to go OFF for our JVs.

We will be running aggressive scarcity on this launch. YES, we have the usual F/E hourly price increases... BUT the offer is also CLOSING PERMANENTLY at launch end. AND we have hourly price increases on the upsells too!
