2018 SGA Bylaws-Required Trainings Overview

Per the Bylaws, please complete one training in each category by the end of the year. Trainings fall under the same attendance requirements as General Body Meetings. Accepted trainings are listed in each category - if you've already taken a training or workshop that you think might qualify, let us know and we'll go over its contents to see if it works! Any training that has occurred in the last 3 years will satisfy the categorical requirement, except for Financial Management, which SLI renews and redoes every year.

Please send completion/attendance confirmation by email or text. Thank you!!! :)
