What others are saying:

"I was CONTENT with the same plan I'd been using for years. One day, I saw an ad for UBG and decided to call, just to make sure there weren't more affordable options out there. In 5 minutes flat Yunion showed me that I had several cheaper options, with fewer copays, AND my doctors were still in-network. It was so easy and fast! I had no idea health insurance plans could change that much every year and I'm thankful that UBG was able to help me find a better plan. Now I'm saving way more every month! Thank you Yunion!"

Donna C.

"I used to hate the open enrollment period, having to spend countless hours staring at a computer screen to review plans. The process would take days, and in the end, I still wasn't sure if I'd found the most affordable option that would cover my needs. When I saw an ad for UBG, I decided to give them a call and I was amazed! In just a few minutes we'd found the most affordable plan for my needs, my preferred doctor was in network, and I even knew the copays for all my medications. It was so QUICK! I'm so thankful that I'll never have to spend hours researching plans again. I'm with UBG for life."

Santiago G.

“A year ago I got my family covered through an agent, and he ASSURED me that I’d gotten the cheapest plan available... Eventually, I realized that wasn’t the case and I’d been overspending on a plan that didn’t best cover my needs. What I didn’t know is that agents legally aren’t allowed to talk about other plans outside of their carriers, and that was a shock to me! Flash forward 1 year and I’m now with UBG. When I called, they showed me plans from all different types of companies, factored in my medications, and found me the most affordable plan in my area! Within minutes I had a way cheaper plan that suited my family better. I’m so thankful I decided to call UBG, they’re the best!”

“Yes, I want to make sure I have the most affordable plan that fits my needs this year!”

URGENT MESSAGE From UBG:

Dear Friend,

Searching for a health insurance plan during open enrollment can be tricky...

Searching for a plan used to require long hours of staring at a computer screen while jotting down notes...

Or waiting on hold (for what feels like days) trying to reach an insurance company with questions like:

“Is my doctor in-network” or “Are my medications covered? What are my copays?”

However, if you currently live in South Florida...

Those days are OVER.

Because Universal Brokers Group is stepping in to do the hard part FOR YOU...

And saving all who seek their help time, money, and headaches this open enrollment with...

A 100% done-for-you Health Plan Research Tool

That's right, UBG's all-in-one comparison tool turns hours of research into five minutes of ease.

(Yes, it's REALLY 5 minutes)

Plus, it comes with some cool features to make sure you find the best plan possible from a wide range of carriers(We'll reveal all of them in just a bit).

But First...

WHO IS THIS TOOL FOR?

This tool is for you if:

- ✓ You want to MAKE SURE you find the best plan for you, your family, or your business.
- ✓ You're overwhelmed by the complexity of health insurance plans and need a straightforward way to understand your options.
- ✓ You have a plan and are wondering if there are better available options but don't want to spend time researching.
- ✓ You value your time and don't want to waste hours researching plans or calling multiple carriers.
- ✓ You want personalized information about copays and deductibles for your specific medications and health needs.
- ✓ You want to ensure your preferred doctors and specialists are in-network without having to check with each plan individually.
- ✓ You're considering changing your current health plan and want to compare new options side-by-side with what you currently have.

And even if you're saying...

"I've had the same plan for years, why would I change now?"

We COMPLETELY hear where you're coming from. And you should know...

It's important to review your plan each year for ONE simple reason.

Every year, all the different carriers compete to outdo each other for profit...

This means that they will change the details of your plan REGULARLY to benefit themselves.

This can result in raised premiums, reduced plan benefits, reduced coverage, and even your providers falling out-of-network.

So it's a great idea to review your plan at least once to MAKE SURE you don't end up spending more than you need to...

And with UBG's all-in-one comparison platform, you could knock this out in 5 minutes, with just one phone call.

And most importantly...

It's FREE

That's right, this 5-minute call is completely free.

No cost, no obligation!

You may be wondering...

“How in the world does this tool instantly identify the best health plan for me”

Great question!

Our enrollment platform compares plans from all sorts of carriers(including your current plan) side by side.

BUT, it also has one REMARKABLE capability...

Once we input the medications you take, as well as your preferred doctor, the system automatically applies this information to EVERY available plan.

Immediately showing you whether your medication is covered, the applicable copays, AND whether your doctors are within the network of each plan.

ALL IN 5 MINUTES!

If you had to find all this out for yourself, you'd have to call each insurance company, give them your list of doctors and medications, take notes for each call, and calculate the costs yourself.

This process could take an entire WEEK...

But with our service, we've crunched all that time into mere minutes with our comparison tool.

Put simply, we do the research and comparison **FOR YOU.**

Because We Understand Just How Tough Finding A Plan Is!

We know full well how *annoying* it can be to sift through insurance options for days...

ESPECIALLY during the holidays!

And we also understand the fundamental reason why it takes people so long to find the right plan...

The reason is simple, health insurance is a FOR PROFIT business.

The insurance companies are in it to make money, so it's in their best interest to constantly make changes to each plan so the masses get confused and overspend...

The EASIEST way to sidestep this is to sit down with someone who's *in the game* and stays updated on the latest market updates.

That's where we step in...

Here's Your Golden Ticket To Make Open Enrollment a Breeze

Now, if you're not familiar with us...

Hello!

We are Universal Brokers Group, and we're an insurance broker dedicated to helping you find a plan that's specifically tailored to you and your budget.

It's our mission to make the open enrollment process as fast and easy as possible...

And we accomplish this by combining our revolutionary comparison tool with our EXPANSIVE list of carriers and plans.

But don't be fooled...

We're Not Agents!

Nor do we wish to be! Because there is one GLARING issue when dealing with agents...

A licensed agent LEGALLY cannot discuss the competition because they work exclusively for one carrier.

Even if they are familiar with the benefits of other plans, these agents are trained and legally required to ONLY discuss their own carrier's offerings.

So if you contact the carrier directly and speak to a licensed agent, you won't be able to get comparative information unless you do the comparison yourself...

Here, We Take A Different Approach

We're not bound by ANY one company...

We're connected with all the major carriers, so we have the flexibility to discuss them ALL with you.

This means you receive comprehensive and unbiased information, tailored to your specific needs.

We're in the business of helping YOU make the best decision for your health care.

"I want to find the most affordable plan in the next 5 minutes"

3 short testimonials

"Ok, What's The Catch"

Well... There is none!

As we said earlier, we're in the business of helping YOU.

That's why we've put together this **5-minute, no-cost, and no-obligation** offer for our new comparison tool.

We want to give everyone a quick and easy, no-strings-attached way to find the perfect plan or review their current plan and make sure they're getting the best coverage.

It doesn't matter if:

✓ **You've already selected a plan this year**, because a quick review could reveal more suitable options you might have missed.

✓ **You've been with the same plan for years**, because the health insurance market constantly evolves, and better plans might now be available.

✓ **You believe your current plan is sufficient**, because it's always smart to compare and ensure there aren't better, more cost-effective plans out there.

Remember, open enrollment is still ongoing, so there's time to reassess and potentially switch plans.

Even if you're content with your current plan, it's wise to take just five minutes to ensure you're truly getting the best coverage available.

A quick review now could bring significant benefits and peace of mind!

Why Time Is Of The Essence...

This a VERY limited offer...

Simply because open enrollment closes in just a few short weeks.

After the enrollment period closes, you won't be able to change plans for a long time. So you might be stuck overpaying for a plan that doesn't fit your needs.

That means your chance to compare your options for FREE **will be closing very soon.**

If you want to make sure you have the best available plan, in 5 minutes, with no strings attached...

Then **NOW** is the time to act before it's too late!

All it takes is one phone call...

"I want to find the most affordable plan in the next 5 minutes"
