Author Guidelines

Agrifor Journal Author Guidelines

All manuscripts must be submitted to Agrifor Editorial Office or Online Submission at OJS portal address: *http://ejurnal.untag-smd.ac.id/index.php/AG/user/register*, where author register as Author by online. If authors have any problems on the online submission, please contact Editor in Chief at the following email: jumaniani@gmail.com or phone number/WA: +628125875659.

The following terms can be used by the author to publish the manuscript in the Agrifor Journal:

1. Originality of the Manuscript

- Manuscripts submitted to the editorial team of the Agrifor Journal are original works and have never been published.
- Manuscripts are not under consideration by another publishers.
- Manuscripts that are in the process of publishing are not submitted to other publishers.
- The author lists all names that contributed to the writing of the article.
- Manuscripts submitted by authors have received approval from all contributors.
- If there is a dispute related to a published manuscript, it is the responsibility of the author to resolve it.

2. The format of the manuscript

- The was written in accordance with the style of the environment as contained in the provisions and **guidelines** of the author (download author guidelines here).
- Manuscripts are arranged in order: Title, authorship (author, agency and address, email address) Abstract and Keywords (English), Abstract and keywords (Indonesian), Introduction, Research Methods, Results and Discussion, Conclusion, Acknowledgments (if any), and bibliography, manuscripts according to the writing procedures as in the manuscript **template (download the template here; Template English**).
- The title is composed of a maximum of 14 words, not including conjunctions. The title must be specific, concise, informative, and able to describe the entire contents of the script.
- Abstrak / Abstract
  Abstract in Indonesian and English. Contains briefly the research background, research objectives, research methods used and conclusions. Give one or two sentences to discuss the findings. Abstracts are made in Indonesian and English, not more than 250 words without references and followed by keywords (no more than five words or phrases arranged alphabetically with capital letters at the beginning of the word).
- **Introduction**
  Contains the background that underlies the research and mentions previous research that has been carried out, the research objectives, framework and brief literature, and the approach used in relation to the problem under study.
- **Materials and Methods**
  Describe in detail and clearly but concisely the location and time of the study, the tools and materials used. The method used is written clearly and systematically, including about statistical or research designs. This allows other researchers who will re-examine with a broader study to do it in a relatively similar way.

- **Results and Discussion**
  Results should be clear and concise. Do not present the same data in both table and graphic and image format, it must be numbered and described in text. The title of the table is written in Indonesian and placed on the table, while graphics and pictures are placed under it. The discussion is structured by highlighting the results of research that have received broad attention, explaining their meaning, comparing them with other research results to provide direction for further research.

- **Conclusion**
  The main conclusions of the research can be presented in a short Conclusion section, which can stand alone or form a subsection of the Results and Discussion section and are not numbered but in the form of paragraphs.

This section is required to be included in the manuscript!

Acknowledgements (Times New Roman 10): In this section, you can acknowledge any support given which is not covered by the author contribution or funding sections. This may include administrative and technical support, or donations.

Example: "I/We would like to thank….".

Author contributions (if the author more than one): If there is only a single author in the article, this section is not necessary. For research articles with several authors, a short paragraph specifying their individual contributions must be provided. Please turn to the CRediT taxonomy for the term explanation. Authorship must be limited to those who have contributed substantially to the work reported.

Example: "Conceptualization, X.X. and Y.Y.; methodology, X.X.; software, X.X.; validation, X.X., Y.Y. and Z.Z.; formal analysis, X.X.; investigation, X.X.; resources, X.X.; data curation, X.X.; writing-original draft preparation, X.X.; writing-review and editing, X.X.; visualization, X.X.; supervision, X.X.; project administration, X.X.; funding acquisition, Y.Y. All authors have read and agreed to the published version of the manuscript."

NOTE: X.X., Y.Y., and Z.Z. are the initial of the author's name.

Kontribusi penulis (jika penulis lebih dari satu): Jika hanya ada satu penulis dalam artikel, bagian ini tidak diperlukan. Untuk artikel penelitian dengan beberapa penulis, paragraf singkat yang menentukan kontribusi individu mereka harus disediakan. Silakan gunakan taksonomi CRediT untuk penjelasan istilah. Kepenulisan harus dibatasi hanya pada mereka yang telah memberikan kontribusi substansial terhadap karya yang dilaporkan. Contoh: "Konseptualisasi, X.X. dan Y.Y.; metodologi, X.X.; perangkat lunak, X.X.; validasi, X.X., Y.Y. dan Z.Z.; analisis formal, X.X.; investigasi, X.X.; sumber daya, X.X.; kurasi data, X.X.; penulisan-persiapan draf asli, X.X.; penulisan-tinjauan dan penyuntingan, X.X.; visualisasi, X.X.; supervisi, X.X.; administrasi proyek, X.X.; akuisisi pendanaan, Y.Y. Semua penulis telah membaca dan menyetujui versi naskah yang telah diterbitkan." CATATAN: X.X., Y.Y., dan Z.Z. adalah inisial dari nama penulis.

AI declaration: The authors would like to clarify the use of Artificial Intelligence (AI) tools in preparing this manuscript.

Example:

- If AI tools were used, please specify which tools were employed and their purpose: "All AI use complies with the journal's policies and may be verified through Turnitin, with the AI detection score kept below 20%. The authors take full responsibility for the content of this manuscript and for the appropriate and ethical use of any AI tools during its preparation and submission".
- If no AI tools were used, please declare, "The authors hereby declare that no Artificial Intelligence (AI) tools were utilized in the preparation, writing, analysis, or editing of this manuscript," and confirm that no AI tools were used at any stage prior to publication.

Ethical clearance: Authors are kindly requested to provide a statement confirming that the research has received ethical approval form the relevant institutional or national ethics committee, where applicable.

Examples:

- for authors, if ethical approval was obtained: "Ethical approval for this study was granted by the Institutional Review Board at [University/organization Name] (National). Informed consent was obtained from all individual participants included in the study."

- If not applicable: “his study did not involve human participants, animal subjects, or personal data.”

Data availability statement: In this section, please provide details regarding where data supporting reported results can be found, including links to publicly archived datasets analyzed or generated during the study. Please refer to Data Availability Policy.

Examples:

- if the data is not available publicly, the author can write: “The data is available by request to the author”
- If the study did not report any data, you might add “Not applicable” here.

Conflicts of interest: Authors must identify and declare any personal circumstances or interest that may be perceived as inappropriately influencing the representation or interpretation of reported research results.
Examples:

- If there is no role: “The funders had no role in the design of the study; in the collection, analyses, or interpretation of data; in the writing of the manuscript, or in the decision to publish the results”.
- If there is no role conflicts of interest: “The authors declare no conflict of interest.”

References

REFERENCE

Writing a Bibliography should use reference management applications such as Mendeley. Writing a Bibliography should use reference management applications such as Mendeley, End Note, and Zotero. A bibliography is all publications over the past 10 years, either in the form of textbooks, journals, and others. 80% of the bibliography is a scientific journal and is not anonymous. Arranged alphabetically by author's name, stating the title, publisher, city, volume, publication number. Each bibliography used must appear in the text. The bibliography is written with the second line and so on indented 1 cm, spaced 1. The spacing between the written references is 6 pt. Minimum 15 bibliographies, 80% from journals, the last 10 years and include their DOIs. The writing format used in the Agrifor journal is in accordance with the APA 7th Edition format (American Psychological Association).
