ACKNOWLEDGEMENTS

The authors would like to express their sincere gratitude to the Doctoral Program, University of Jember, Indonesia, for providing academic support during the preparation of this systematic review. The authors also acknowledge the scholarly guidance, constructive feedback, and academic supervision provided throughout the development of this manuscript. This work benefited from the availability of scientific literature indexed in Scopus and from the methodological guidance of the PRISMA-informed screening process and the Mixed Methods Appraisal Tool (MMAT), which supported

AUTHOR CONTRIBUTIONS

Akhmad Yanuar Fahmi Pamungkas: Conceptualization, literature search, data screening, data extraction, quality appraisal, formal analysis, visualization, writing original draft, and manuscript revision. **Dwi Prijatmiko:** Supervision, conceptual guidance, methodology review, validation, and writing review and editing. **Isa Ma'rufi:** Supervision, methodological guidance, validation of the review process, interpretation of findings, and writing review and editing. **Tantut Susanto:** Supervision, theoretical refinement, critical review of the manuscript, interpretation of findings, and writing review and editing. **Yanti Rosdiana:** Literature search, data screening, data extraction, quality appraisal, and writing review and editing. **Indah Kurniawati:** Literature search, data extraction, synthesis of findings, and writing review and editing. **Nurul Eko Widiyastuti:** Data screening, data extraction, preparation of supplementary materials, and writing review and editing. **Irma Prasetyowati:** Methodology review, validation of the review process, interpretation of findings, and writing review and editing. **Riyan Dwi Prasetyawan:** Literature search, data management, visualization support, and manuscript formatting. **Miftahul Hakiki:** Literature screening, data checking, manuscript formatting, and writing review and editing. **Titis Sriyanti:** Data extraction support, supplementary file preparation, reference checking, and

writing review and editing. **Sasmiyanto:** Data management, reference checking, manuscript formatting, and writing review and editing. All authors contributed to the development of the manuscript, reviewed the final version, and approved the manuscript for submission.

CONFLICT OF INTEREST

The authors declare that they have no competing interests or conflicts of interest related to the publication of this article.

FUNDING

This research received no specific grant from any funding agency in the public, commercial, or not-for-profit sectors.
