Bùi Quang Long

From Vietnam, we would like to extend our best wishes to WeTrust and The first International Conference on Master Luong Minh Dang's Human Universal Energy will be held in India on August, 2025

With many of our inner values yet to be fully uncovered, we have experienced various programs that harness cosmic energy, allowing our horizons of knowledge and personal health to expand. When consciousness has not yet reached its truest state, community resonance brings profound and eternal value to the spiritual growth of learners who are receiving metaphysical frequencies. Even more significantly, the act of sharing the spirit of enlightenment enhances the wisdom of every individual participating in our meaningful conference.

Finally, we wishing you and all the delegates diligence and perseverance on the path you have chosen

MESSAGE FROM Dr. Madhuram Aravindaraj

It is with the greatest pleasure I sent my best wishes to wisdom and enlightenment Trust on the First International Conference on Master Luong Ming Dang's Human universal energy. to unfold an extraordinary journey filled with success and satisfaction. Illuminate lives with kindness and compassion. To rise lead and inspire. To light up lives with hope and kindness.

MESSAGE FROM BILJANA

Dear Organizers and Participants,

On behalf of M.E.L. Macedonia, I would like to extend warm greetings and sincere congratulations to everyone involved in organizing the First International Conference hosted by We Trust, India. This event is a valuable opportunity for learning, connection, and sharing among those who follow the Universal Energy path.

Our center in Macedonia was established in 2005, and since then, we have continuously organized Universal Energy seminars—from the basic level up to Level 20—as well as international reunions and weekly meet-ups.

Personally, I have been practicing UE since 1998, and since the establishment of the UE Center, I have had the privilege of teaching seminars and witnessing first-hand the transformative impact of Master Luong Minh Dang's teachings. The changes we observe in our and other people's lives continue to inspire us to teach and remain committed to this path. Although Macedonia is a small country, we are grateful to have supported hundreds of students from all walks of life through the UE courses. We also have a number of dedicated instructors who are actively engaged in teaching the seminars and spreading this valuable knowledge and energy with other people.

One of the core responsibilities of our center is to help preserve the original teachings of the founder, Master Luong Minh Dang. To support this mission, we maintain an archive and library of seminar audio and video recordings, along with transcripts, to protect the authenticity of the method and ensure it remains accessible to students worldwide and true to its source. This work is not only a local commitment but also a central value of the MEL Global network of independent centers (mel.global), where preserving Master Dang's original teachings is regarded as a highest priority.

We deeply appreciate the initiative and effort of We Trust, India, and we are honored to greet everyone at this meaningful gathering. We look forward to meeting everyone in person on another occasion and continuing to grow together on this shared path.

With warm regards,

Biljana Markovic

Vice President, Mankind Enlightenment Love (M.E.L) Macedonia

Skopje, Macedonia)

MESSAGE FROM DR. Dick Vreeswijk

Dick Vreeswijk, currently the coordinator of SHY-Holland, started listening to the lessons of Master Luong Minh Dang in 1992.

Master Dang showed us our mission as human beings. We can help people by serving them and our main mission is to make people happy.

We need to step down to the level of the people who need help. Therefore, humility and selflessness are essential to serving humanity. If we renounce power, fame and name, only the invisible, unknown helper remains.

We are all students on the same spiritual learning path.

Wishing you a fruitful and inspiring conference in the spirit of our Master.

To: WE TRUST - India

Thank God – and the Divine Power of His Loving Wisdom
– for connecting us on this planet in this human lifetime.

Thank you to the soul of Master Luong Minh Dang for
bringing divine blessings to all of his students at every
international conference, birthday and seminars.

The first FIC to be held in India, organized by We Trust,
will be a valuable occasion for We Trust members and international participants to
exchange positive frequencies, enhance the synergy of collective vibrations, and elevate
the energy field – not only for India but for the whole Earth.

I hope that every practical formula from the Master's teachings will become a part of our
daily lives, just like food and water that we receive and rely on.

I still dream of lush green fields, abundant and fertile farms filled with vegetables, livestock, and poultry raised with pure energy by applying the formulas for safe agricultural production.

To me, if we wish for healthier bodies and reduced karmic burdens, the most effective and time- saving method is to practice the energy-based healing formulas: cellular purification, energetic crop production, and bodily detoxification. This is how we can first transform ourselves, and then extend that transformation to our communities.

Love for the body, love for the soul. These concepts are vast, but we should distill and apply the formulas that are simple and practical.

I always wish for We Trust to grow strong and endure alongside UUI, building values rooted in enlightened and wise love.

The legacy that Master left for humanity is an invisible treasure. Under no circumstances should we lose the sacred connection between the spiritual world and the practitioners of Master Luong Minh Dang's teachings.

We must seek to remove as many barriers and separations as possible – to open up for communication, connection and to elevate tangible values. Only then will the world feel closer, and love becomes more visible and tangible.

A few words to We Trust – I firmly believe that We Trust will thrive both spiritually and materially.
