

Unit Project 1 -- Geography I can describe a country

For your first final project in this unit, you will be preparing a video describing a country, including its location on a map. Please note that if you have already done a similar activity for class, you must choose a new country.

Use [the videos of county presentations](#) as your guide!

Part 1: Prepare

Find out the following information about your country:

الموقع في الخريطة:

العاصمة:

عدد السكان:

المساحة:

الجغرافيا:

أماكن مهمة:

اللغات واللهجات:

Part 2: Create

Create a presentation (in Arabic, in Powerpoint or a similar program!) that contains pictures and text illustrating the information above. You will use this presentation in your final video.

Write the script you will use to share the information in Part 1 along with your powerpoint in Part 2. **DO NOT USE GOOGLE TRANSLATE TO TRANSLATE A SCRIPT FROM ENGLISH OR**

ANOTHER LANGUAGE—if you aren't sure how to say something, try to make it simpler and use what we've learned so far in this unit. Practice reading your script aloud so you can do it easily.

Part 3: Video

Use your presentation and script to make a video describing your country. Be sure to include all of the information in Part 1, and to practice your script enough that you can read it easily before you start recording.

Part 4: Share

Watch your classmates' presentations together! Take notes here:

اسم الطالب:
اسم الدولة:
الموقع في الخريطة:
العاصمة:
عدد السكان:
المساحة:
الجغرافيا:
أماكن مهمة:
اللغات واللهجات:

Part 5: Reflect

After watching everyone's videos, reflect on how your video went! Be sure to note things that went well as well as things that you would like to revise or work on more, citing specific examples of each. Consider things such as pronunciation, verbs used, and so forth.
