

I'm pleased to announce I've joined the _____ as a _____.

_____ and their team are one of the best Real Estate teams in _____ and they've served over _____ families over the last 5 years. They provide me with all the tools and training to be the best agent I can be and I look forward to earning your business. If you know of anyone that I can help - even just someone who wants to learn more about what a home purchase looks like, I'd love for you to consider sharing over my information.

Here it is for easy reference: [info here]

Thanks for being on my list of important people that I wanted to reach out to and please reach out to me anytime I can help.

Notes:

- If not in their signature, maybe consider a link to the website - esp if they are already up on the site - anyone in FUB who becomes a lead will stay with the same agent (as long as they use the same email address in FUB to register on the site)
- I would keep it pretty short and I wanted to add more about the agent, but obviously don't know this agent, so any additional "about the agent" info is good I think.
- Also, if their list isn't too big, consider sending this as a one by one email template (not blast email) since then it doesn't create the unsubscribe link or make it seem like they've been added to a newsletter.
