

Hey Conqueror team,

I like how your business offers a vast amount of clothing for both men and women which makes it easy to pick out different pieces and still look great. For example with men's clothing, the classic white T-shirt paired with white mesh basketball shorts looks fantastic.

However, the sky's the limit regarding your business's funnels.

If you want to make your business become as big as GymShark or Reebok I recommend putting up advertisements on Instagram. This will help you get more traffic to your website and increase your overall sales.

I have more ideas to help your business grow and become great, if you want to know more we can hop on a call and discuss it. I have included a sample advertisement that you are free to use below.

I look forward to hearing from you,

XXXX
