Standards/Essential Question ?

CCSS.ELA-Literacy.WHST.9-10.6 Use technology, including the Internet, to produce, publish, and update individual or shared writing products, taking advantage of technology's capacity to link to other information and to display information flexibly and dynamically.

Steps

1. Students create an original meme on Keynote using images and text about a specific topic covered in class.
2. Students can collaborate with other students, if comfortable.
3. Students can add audio to their keynote slide or explain verbally.
4. Students AirDrop or use Google Classroom to share with the teacher.
5. Students share their memes with the entire class or with selected students if not comfortable to share with the whole group.

How Task Meets the PL Component Above

This meme project on keynote allows students the opportunity to be creative and collaborate with their peers on the creation of a visual product to explain their learning on a topic. Memes have become a way of communication on social media for many people across the world.
