

Overview

Website Project Strategy Overview

CaraVita Village

Executive Summary & Brand Positioning

CaraVita Village is an active independent senior living community based in Montgomery, Alabama.

While CaraVita Village is newly managed by **Distinctive Living**, the digital footprint preserves the community's identity, avoiding standard template structures to honor the community's current content and design.

Key Project Directives

- **The Inheritance Model:** The design and copy are built off their original website rather than utilizing standard Distinctive Living / Citizen template packages.
- **Heritage & Trust:** Highlight the **20+ years of local service** and trust established in the Montgomery area.

Target Audience & Core Value Propositions

The website content speaks to a dual audience: **active seniors** looking to simplify their lifestyles, and **adult children (influencers)** seeking peace of mind, physical safety, and budget predictability for their aging parents.

Primary Value Propositions

- **Financial Accessibility & Transparency:** Direct pricing callouts starting at **\$2,100/month** on a month-to-month lease. There are no high upfront buy-in or community entrance fees, directly countering a major industry pain point (financial anxiety).
- **Care Coordination Model:** Clearly setting expectations that CaraVita is an *independent living* neighborhood. It does not provide direct ADL (Activities of Daily

Living) or medical care, but maintains strong partnerships with trusted local home-health providers.

- **Chef-Led Comfort Dining:** Elevating mealtime into a premium social experience led by Culinary Director **Sammiria Thornington**.
