

Improving Watersheds with
Water Quality Testing

Viewing Guide

While Viewing Questions:

1. According to David Ortiz, what are indicators of imbalances in nutrients in the ecosystem of a river or lake? What are some of the causes of imbalances?
2. What kinds of tests are Shabazz students conducting to evaluate the water quality of a local lake? How do the results impact their attitudes and decisions related to the lake?
3. How are citizen scientists involved in protecting the water quality of bodies of water in their communities?
