## **DEATH IS A GIRL // NOIR MAP PALETTE**

- ★ This is a color palette map!! Please follow the palette. Fur / skin tone is any shade of gray and eyes are the normal character's eye color. The background varies depending on your part.
- ★ The palettes aren't just limited to detailed backgrounds, you could just throw bright colors left and right ( for the parts that require bright colored backgrounds, however. I would prefer backgrounds for the rest. )

## PARTS 1-5 & 11-14

★ Background consists of only grays. Blood is bright red.

## PARTS 6-10 & 15-21

★ Background consists of bright, vibrant colors. DO NOT have dull colors!! Blood can be any bright color or rainbow!!
