

Introduction to Patchwork and Quilting

For the first class, you will not need to purchase many supplies because I would like to begin with a discussion of the types of tools that you will need to begin sewing. I also intend to have a brief talk about fabric. If you haven't bought fabric, do not feel you must have it before the first class. If you already have fabric you like, bring it along.

The book we will use is Start Quilting, 3rd edition, by Alex Anderson. You will need your own copy for the class. You can purchase it at Loving Stitches when you sign up for the class.

For later classes, you will need a sewing machine with new needle if you haven't changed it lately. You will also need the bobbin case and a bobbin, the power cord, the foot pedal, and the manual for the machine (**especially important if you do not have a Bernina).
