

## STACK TEAM APP

This season, your child's coaches will be using the [Stack Team App](#) to communicate with you about the season. From this app you can find the schedule for the season, you can chat with coaches, parents and players. You will also find helpful websites and/or documents that the coach would like to share with you there. Please download the app and create an account. You can create an account on a web browser as well. The url to find your child's team(s) are found below.

**Students-** If you, the player, would like access to communicate to your coach, you **MUST** also create your own account. **You can sign in with Google with your school account.**

**When setting up your account please choose one option.**

- Parents select "Parent"
- Coaches select "Coach"
- Students select their team, ex: JV, Varsity, Player
- **You DO NOT need to fill in all the requested information. Leave everything blank, hit submit and it will tell you the mandatory fields.**

If you have any questions, please reach out to Jeni Harvey [jharvey@bomusd.org](mailto:jharvey@bomusd.org)

**If you are in the app, do a search for "GSHS" or "GSJH" for high school or junior high sports. All the teams will automatically populate with that search.**
