

Names and ages jigsaw task – French

Picture A

Picture B

Teacher instructions

This activity is designed for Year 7 or beginner students. Divide students into pairs and give each student one picture, A or B. Both A and B have information missing.

To complete the family tree, students ask:

'Numéro 1 **a** quel âge?'

OR

Numéro 1, c'**est** qui?

Language required

Correct use of 'a' [avoir] for age and 'est' [être] for identification, and numbers.

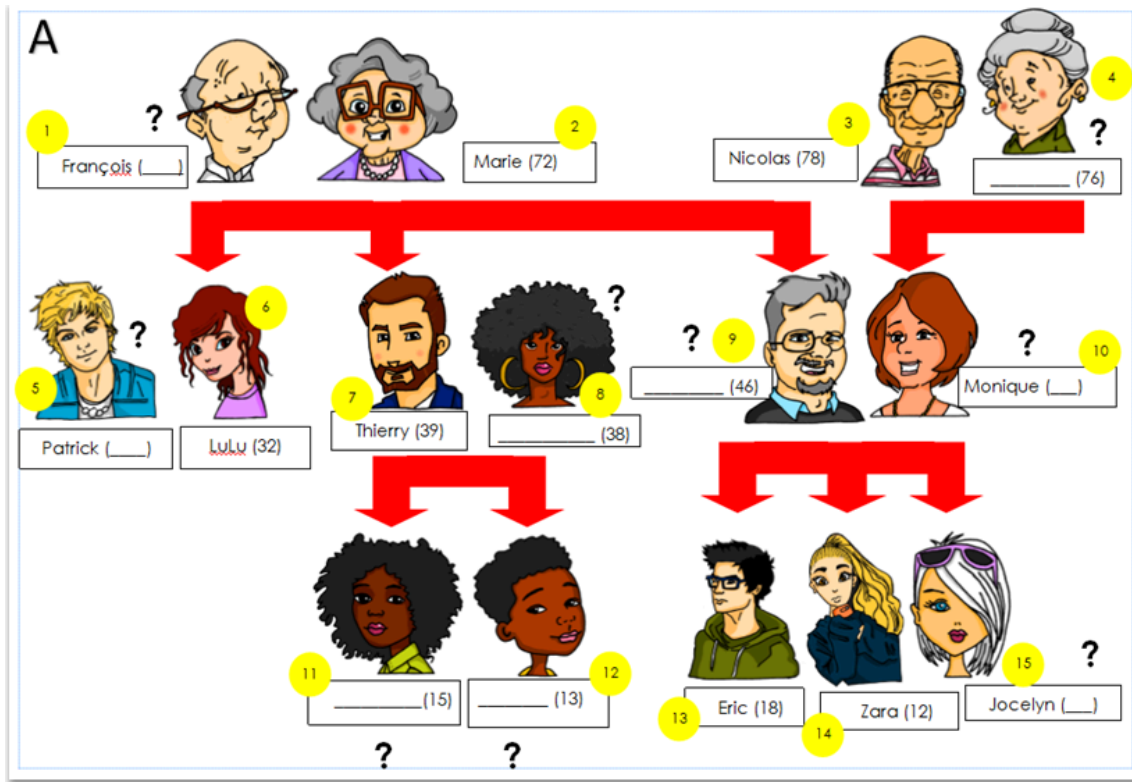

In addition, students use their decoding knowledge to sound out the names.

On this version, pupils have a list of names to recognise from their partner's pronunciation.

On a second version below, the names are removed, and students transcribe the names, using their SSC knowledge.
