Background

Marques was born and raised in Cambridge, England. They have had a stable home life, with both parents still alive and living in Cambridge. No siblings.

Marques attended the University of Cambridge from age 18, and achieved a 1st class Bachelor's Degree in Policing, followed by a Masters Degree in Journalism from the same university, graduating finally in 2020.

Shortly following the conclusion of their masters degree, Marques was given a job offer by the Foundation through a front, and was eventually employed after the regular vetting process.

Foundation History

Following initial training, Marques was deployed at Site-65, Canada, as a GSD Cadet, where they worked through the ranks to the rank of Officer. During this time, they were never cited or otherwise noted due to FLC violations or other issues, which is unfortunately rare in that department. They were eventually offered a role in the Department of Internal Affairs due to their record and background, which they accepted.

Marques has now been employed by Internal Affairs for several months, during which time they have had no notable issues and have had multiple recorded arrests. They are currently involved in two ongoing investigations.
