Portal to a Temporary land

The Portal to Autumn Meadow was received as a reward for clearing 50% of “Sunny Meadow” in Valley of Fears, released October 20, 2022.

Place the portal on your home station. You may leave it on your home station for as long as you wish, but once you travel to land “Autumn Meadow”, you will have 7 days to complete it before you can no longer return. There will be no indication of the percentage of land cleared. The land has no quests with it. The land is full of gift boxes, coal, clay, and quartz sand!

There is no 100% clearing reward!!

Once the portal is placed on your land, you will not be able to return it to storage until the 7 day timer is up. Then you will get a decorative version.

When you click on the Portal, you will get clear warnings about going at this time.

This timer will show to your right while you are on the land.

It took me about 25 minutes to completely clear the land. Keep in mind that everything gives energy, so energy is continuously added as you are chopping. You can also go out of the land, chop elsewhere, and then return to chop some more. It took approximately 2895 energy to clear, plus the extra energy earned from chopping. From the complete clearing, I got approximately 250 stones, 600 coal, 1050 clay, 250 worms, and 35 Horn Sets.

After the land has expired, you can sell the Autumn Meadow on your home station and you will receive a decorative one. The decorative one can be moved in and out of storage as you wish.
