### [2021 DSA Convention Green New Deal Priority Resolution](#)

In the runup to the 2021 Convention, DSA ecosocialists proposed reorganization of the Green New Deal campaign by creating a new Green New Deal Commission with leadership appointed directly by the National Political Committee. The Ecosocialist Working Group and Green New Deal Campaign would be merged into the new GND Commission. The Priority Resolution received overwhelming support in a poll of delegates before the Convention and was adopted as part of the Consent Calendar.

## Background

### [DSA's Ecosocialist Green New Deal Principles](#)

In early 2019, members of the DSA Ecosocialist Working Group drafted a set of principles for an ecosocialist Green New Deal. The resulting document was adopted by over 40 chapters, working groups, caucuses, and by DSA nationally.

### [2019 DSA Convention Green New Deal Resolution](#)

At the August 2019 National Convention, DSA adopted the Green New Deal Resolution by acclamation. The Resolution created a Green New Deal campaign structure with a steering committee to be appointed by the Ecosocialist Working Group.

### [2020 Green New Deal Summit Synthesis Report](#)

In the midst of the first year of Covid and the 2020 presidential campaign, the DSA Green New Deal Campaign Committee organized a "summit" in which representatives of over 60 chapters participated. The Committee prepared an extensive report aimed at facilitating discussion of various campaigns that might become priorities.
