Sign up a teammate when his/her name doesn't come up

There are possibly two reasons for this: they may have signed up as individuals or perhaps on another team, or they have not joined this Community.

In either event, the best option today is to sign up your other teammates and in the COMMENT section, request that the “missing player” be put into your team.

As everyone gets more familiar with the App, there are other ways for players to resolve this themselves. We are also awaiting an enhancement which should give Captains the ability to manage changes to their team.

Withdraw from an Event

After registering and realizing you can't play, you have the option to "Withdraw from event".

An alternative is to email the Community lead.

If you have a substitute, and if during open sign-up, that player can use the Register option as above. During sign-up, they should use the Comment field to let the Community lead know what team to join. If the sign-up has closed, the best option is to email the Community lead.

See my Tee-Time for an Event

Clicking an Event picture or a “View” button will display a screen with many options.

If registered, your tee time will be displayed in the left circle.

You can also click Tee Time Pairings for the complete list.

Very important to use the same Email address that is used for our club communications – this is your profile. If you’ve forgotten your password, you may need to use the Forgot Password and create a new one. If so, remember that so you can reset it on your computer too. Always use the Save Password option to avoid having to remember.

Once the app is on your phone, the operations are near-identical as described above.
